Major shareholding notification

These instructions describe how a notifier submits an online major shareholding notification.

The notifier registers and logs in via the Reporting Portal <https://www.fi.se/en/e-services-and-forms/reporting-to-fi/>. The websites also have instructions for how to log in and delegate authorisations <https://www.fi.se/en/e-services-and-forms/register-an-account/>.

More information about major shareholding notification can be found here <https://www.fi.se/en/markets/reporting/changes-in-shareholdings/>

Log in

Go to www.fi.se, click on 'E-services and forms' and 'Reporting to FI'.

INFORMATION ABOUT THE MAJOR SHAREHOLDING NOTIFICATION

In this view, specify the type of instrument, for example a share (ISIN is optional) and the nature of the change.

NOTE! Information listed under the headings “Shares” and “Voting rights” is specific to the holding of shares and certificates. In other words, this information does not apply to any holdings in other categories of instruments (the definitions of the categories are found at the bottom of the page; see the next picture).

Then specify the date of the change and the threshold that was reached or passed (upward or downward).

Continue to next page.

Step 4 of 8 – Notification of acquisition or disposal of shares

This table shows the resulting distribution of the holdings in the issuer. The first line shows the percentage of the total outstanding voting rights, per category. The second line shows the total number of shares (or underlying shares), per category. The holding of shares and certificates does not need to be filled in manually here since this information is generated from the information specified in the previous picture.

In this specific example, the notifier sold shares and thus fell below the threshold of 5% of voting rights and the number of shares through a change in the aggregate holding in the three instrument categories (→ 4.9%). Note that the threshold does not necessarily need to have been reached or passed (upward or downward) via aggregation of the holdings in the various categories; it is also relevant to consider the holdings in the categories separately.

Other appropriate information stipulated by law, for example exercise period, duration, and maturity date for derivative instruments (for more guidelines see FFFS 2007:17, sections 10–11), is specified in the Comment field, along with any other comments you would like to include in the notification. Enter the contact details.¹

Then click **Next**.

¹ The legal basis for FI to compile and publish these so-called major shareholding notification announcements is that this document is necessary for FI to carry out a task in the public interest (Article 6(1)(e) of the General Data Protection Regulation). Chapter 4 of Act (1991:980) sets forth that major shareholders are obligated under certain conditions to notify FI when buying or selling shares and that FI must disclose this information. Chapter 12, sections 10–11 of FFFS 2007:17 specifies the required content of the major shareholding notification. VOTING BY PROXY

This section is only required if you are voting by proxy. If you are, click **Add owner** and enter the information.

Click **Next** to continue.

CONTROLLING CHAIN OF VOTING RIGHTS

This step is required only if there is an indirect holding with a chain of controlling firms through which the voting rights are held. If there is such an indirect holding through subsidiaries, click **Add company** and then **Edit**. Specify the number of voting rights, % of voting rights and the name of the company or companies if there are several subsidiaries with holdings. To save the addition, it is necessary to click **Update**. Then specify the group's total holdings after the transaction/event, i.e., the aggregate holding for the parent company and the subsidiary/firms. Then click **Next**.

If there is no controlling chain of voting rights, skip this step by clicking **Next** without filling in any information.

Step 6 of 8 – Chain of controlling companies

Confirmation of responsibility

Yes, I understand that the notifier is responsible for the information entered

- Also applies to depositary receipts which grant the holder voting rights for the referenced shares.
- Instruments giving the holder the right to acquire already issued shares in the company (FITA = Financial Instruments Trading Act (1991:980)).
- Instruments not included in the previous category, but which are referenced to shares referred to in that category and with a similar economic effect to that of the instruments in that category, whether the instruments are settled physically or in cash.

By choosing not to fill in the "Number of shares before" and the "Number of voting rights before", there may be difficulties for the Market to interpret the flagging notification.
