RISK FACTORS

The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Bonds in order to make an informed investment decision. The risk factors set forth below are therefore limited to risks that, in the meaning of Regulation (EU) 2017/1129, are material and specific to the Issuer, the Group or the Bonds.

The manner in which the Issuer, the Group or the Bonds are affected by each risk factor is illustrated by way of an evaluation of the materiality of the relevant risk factor based on the probability of it occurring and the expected magnitude of its negative impact, for the purpose of which the probability is estimated as “low”, “medium” or “high” and the magnitude of negative impact if it would occur as “low”, “medium” or “high”.

The most material risk factor in a category is presented first under that category, whereas subsequent risk factors in the same category are not ranked in order of materiality.

RISK FACTORS SPECIFIC AND MATERIAL TO THE ISSUER AND THE GROUP

I. Risks related to the Group’s financial situation

Potential losses due to the outbreak of the coronavirus and component shortages and supply chains

The outbreak and global spread of COVID-19 has during the past years had a significant impact on the economy and markets where the Issuer operates, and has created significant volatility and disruption in financial markets and supply chains. The outbreak of Covid-19 has also been a significantly contributing factor to the global shortage of semiconductors and semiconductor chips.

The Group has been affected as a result of disturbances in supply chains and component shortages. Net sales in the Group Company Nordbutiker i Sverige AB (“**Nordbutiker**”) has been negatively affected by supply shortages within certain product categories (e.g. home gym equipment and electric bikes) as well as increasing freight costs by SEK 15 million during 2021, thereby having an adverse effect on its net sales and margins. In addition, the product shortage has led to Nordbutiker having to frontload its purchase order to cater for continued supply in coming seasons and has also driven a general price increase. Even if the stock situation has improved during the third quarter 2021, there can be no guarantee that further effects of the pandemic could adversely impact the Group’s stocks in the future. In addition, supplies from the Group’s suppliers, mainly in China, have been subject to significant delays during the first half of 2021. The situation has improved during summer 2021, but the situation is still uncertain. Furthermore, the outbreak of COVID-19 led to that the operations in the Group Company Hedén Group AB (“**Hedén**”), providing products and services within the motion picture media industry, was negatively impacted due to the film industry, mainly in the U.S. and in Asia, reduced its operations and production pace or was completely closed down. The operations in Hedén has recovered during 2021, but there can be no guarantee that further effects of the pandemic could affect the motion picture media industry in a similar manner again.

Should the pandemic and the effects of the pandemic continue over a prolonged period of time and lead to further disturbances or product shortages in relation to the Group’s suppliers or lead to general price increase, the Group’s operations could be significantly adversely affected, especially if the Group’s stock levels decline from current levels. In addition, should the effects of the pandemic persist over a prolonged period of time, the Group may also generally be adversely affected by any potential declines in the macroeconomic development, which could adversely impact customer demand as a result of changed end-consumer sentiment, decreased disposable income and increased unemployment rates. Such development could in turn would negatively affect the Group’s business and results of operation.

The duration and the magnitude of the impact of the COVID-19 pandemic and the component shortage cannot be precisely estimated at this time, as such impact is affected by a number of rapidly changing factors, such as spread,

immunity and effectiveness of vaccines, in respect of COVID-19, and market demand, in respect of component shortage. If the pandemic continues and further lockdowns or similar measures are taken, the adverse impact on the global economy could deepen resulting in a decline on financial markets, which could have material adverse effects on the Group's business and results of operation, as well as, ultimately, financial position as well as overall future prospects.

The Issuer considers that the probability, of the above risks occurring, in the short term and considering the current circumstances, is *high*, but expects the level of risk to decline over time. If the risks would materialise, especially on high volume products, the Issuer considers the potential negative impact to be *medium*. Should the distribution and delivery lines be severely impacted, the Issuer deems the potential negative impact to be *high*.

Risks related to availability of capital

In order to acquire new investment targets, the Issuer depends on equity being issued or loans obtained. During 2020 and onwards, the Issuer has issued corporate bonds in an amount of SEK 400 million, and has made six directed shares issues generating aggregate gross proceeds of about SEK 218.5 million. The availability of equity financing on the financial markets and investors' view of the Group as investment object, depend on several macro-economic and Group-specific factors, some of which are described under Section II, "*Risks relating to the Group's industry, market and business activities*" below. Lack of equity financing could lead to the Issuer not being able to acquire new investment targets and thereby pursue existing or future business strategies, take advantage of future business opportunities or respond to competitive pressures. Inability to raise additional capital when required could therefore have an adverse effect on the Group's business and financial position as well as future prospects.

The Issuer considers that the probability of the Group failing to maintain sufficient levels of cash is *medium*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

Dependency on subsidiaries

The Issuer is the holding company of the Group and the cash-generating operations are carried out by the Issuer's subsidiaries, *i.e.* the Group Companies. As the Issuer's assets and revenues relate to or are derived from the Group Companies, the Issuer depends on the ability of its subsidiaries to transfer available funds to it in order for the Issuer to make payments of interest in relation to its debt obligations as well as to finance administrative costs. Consequently, the Issuer is dependent on its subsidiaries to fulfil its financial obligations as well as to make payments under the Bonds.

The issuer's subsidiaries are distinct and legally separate entities in relation to the Issuer and have no obligation to fulfil the Issuer's obligations with regard to its creditors or to make funds available for such payments. Except for payment of management fees and Group-internal contributions, allocation of funds within the Group is mainly carried out through share distributions. There is a risk that such funds are non-distributable, restricted or prohibited by legal and contractual requirements applicable to the respective subsidiary, including the relevant Group Company's own financing arrangements. If the subsidiaries do not generate liquidity or are prevented from distributing funds to the Issuer, there is a risk that the Issuer cannot pay its payment obligations as they fall due or needs to take actions such as reducing or delaying acquisitions and investments, selling assets, taking measures for the restructuring or refinancing of its debt or having to seek additional equity capital. This could in turn have a material adverse effect on the Group's results of operation and financial position.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would occur, especially over a prolonged period of time, the Issuer considers the potential negative impact to be *high*.

Refinancing risk

As elaborated under risk factor "*Risks related to availability of capital*" and "*Dependency on subsidiaries*" above, the Group is dependent on its ability to obtain necessary financing besides equity and cash flow. Furthermore, some Group Companies are to a certain extent dependent on continued access to working capital facilities in order

to maintain its operations. Hence, the Issuer or the Group Companies may be required to refinance any debt outstanding from time to time, including the Bonds. The access to and terms of such debt capital depends on the conditions for lending in the financial system. As by 30 September 2021, the Group's long- and short term interest-bearing debt (excluding leasing obligations) totalled SEK 322.1 million, comprised of SEK 300 million acquisition financing, SEK 9.5 million vendor loans, and SEK 8.6 million utilised under overdraft facility and factoring, as well as, and the outstanding amount under the Issuer's bond loan at SEK 300 million. Certain of the Group Companies' operations are financed by certain revolving credit facilities, typically entered into for a duration of 12 months.

The Issuer's and the Group Companies' ability to refinance its debt obligations is dependent upon the conditions of the capital markets, which may be volatile, and the Issuer's financial position at the time of refinancing. In the event that a financial crisis or distressed situation occurs, the Group's access to financing may be adversely affected.

Under the Bonds, the Issuer is required to fulfil certain covenants on continuous basis (*i.e.* the Maintenance Test, as defined in the Terms and Conditions). Such financial covenants include the fulfilment of a maximum level of net interest bearing debt in relation to EBITDA as well as a minimum level of cash and cash equivalents. A failure to meet the Maintenance Test (as defined in the Terms and Conditions) constitutes an event of default under the Bonds, which could lead to an acceleration of the Bonds. There is a risk that the Issuer fails to meet the requirements under the relevant financial covenant, and that the Issuer cannot effect any remedy to cure such breach. There is also a risk, should the Bonds be declared due and payable, that the Issuer lacks access to refinancing options on acceptable terms, or at all, at the time of such acceleration. This could in turn cause lack of liquidity where needed in the Group's operations, as well as impair the Group's growth agenda, which could adversely affect the Group's business and results of operation.

Should any of the above risks materialise and the Group fail to access new loans or refinance existing loans as they fall due, it could have a material adverse impact on the Group's business and results of operation in the short perspective, and financial position in a longer perspective, as well as negatively affect the Issuer's ability to pay any amounts due under the Bonds.

The Issuer considers that the probability of the above risks occurring and the probability of the risk that the Group will not be able to obtain financing, is *medium*. If the risks would occur, the Issuer considers the potential negative impact to be *high*.

Risks related to currency exposure

The reporting currency in the financial statements of the Issuer and all Group Companies is SEK. Whereas about three quarters of the sales and two thirds of the purchases are made in SEK, the Group Companies also have sales and make purchases primarily in USD and EUR, but also in DKK and NOK. As revenues are generated and costs incurred within the Group in other currencies than SEK, the Group's results of operations are to a certain extent subject to currency exchange rate fluctuations, and currency translation risk. The Group does not maintain any arrangements to hedge currency exposure and there is a risk that fluctuations in the value of SEK in relation to other currencies will negatively affect the amount of any items in the Group's consolidated financial statements, even if their value has not changed in the original currency. This could in turn have an adverse effect on the Group's reporting in terms of financial position.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise the Issuer considers the potential negative impact to be *low*.

II. Risks relating to the Group's industry, market and business activities

Risks related to the Issuer's investment objectives

The Issuer acquires small and medium-sized profitable companies and focuses on active long-term development of the acquired business using a decentralised management model with independent subsidiaries. In order to grow its acquisitions profitably, the Issuer depends on the success of such business model.

Smaller companies tend to have smaller and more streamlined management organisations and may as well be managed by its main shareholders. As a result, such companies may to a significant extent be dependent upon its key management persons and/or owners that may possess extensive know-how and experience relating to the company and the market, and may as well maintain important business relationships and contacts as regards relevant customer- and distributor networks. There is a risk that such know-how, experience or business relationships are lost upon the Issuer's acquisition of the company, either by that such key persons terminate their employment or previous owners make an exit, or due to disagreements.

Furthermore, to a certain extent, the size of the business operations determines the potential diversification of the business operations. Small businesses tend to have less diversified product- and service portfolios which would result in a greater dependence on certain customers or suppliers or groups of customers and suppliers. The Issuer is therefore dependent on its ability to maintain a well-balanced mix in its investment portfolio and strike an adequate balance between risk-spreading and synergy effects.

In addition, smaller businesses may operate, in general, in a less formalised and documented manner. As this opportunity for business development is a key contributor to the decision to invest in a company, the Issuer is dependent on being able to develop and structure the relevant business operations in order to achieve cost-efficiency and greater profitability, as well as to conduct appropriate due diligence measures prior to acquisitions in order to ensure that undocumented procedures can be managed.

Should the Issuer fail in pursuing its business model by failing to develop its acquisitions in a cost-efficient and profitable manner, it could lead lost business opportunities and increased costs, thereby negatively affecting the Groups results of operation and, in turn, financial position.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *high*.

Risks related to acquisitions

Acquisitions are subject to a number of inherent risks, including that expectations for future development or growth may prove wrong, despite that *due diligence* measures are carried out, and that important risks, such as credit losses, customer liabilities, regulatory issues or unexpected expenses are overlooked or misjudged, or that uncertain or unlikely events materialise that worsen the outlook for a certain business. Unforeseen or misjudged acquisition-related risks may require the Issuer to make further capital contributions and could result in the profitability or cash flow from an investment decreases or is negative and can therefore have a significant negative impact on the Group's business and results of operation.

In addition, there is a risk that purchase agreement indemnities are not enforceable, limited or expired and risk of disagreements in relation to sellers regarding enforceability or scope of contractual rights or liabilities. Should any acquired liabilities not be covered by applicable and enforceable indemnities, keep well clauses, guarantees or similar, such liabilities, could lead to lengthy and costly disputes and adversely affect the Group's results of operation and financial position.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

Write-down of intangible assets

When completing acquisitions, a discrepancy between the purchase price and the fair value of assets acquired and liabilities assumed is recognised as goodwill. Where the target business, for instance, has a successful brand, good customer base, well-functioning customer relations, good employee relations, and proprietary technology, the purchase price is more likely to deviate from the fair value of the acquired business' assets. Since the Issuer seeks to acquire businesses with a promising outlook, the Issuer may from time to time need to record goodwill as intangible assets. The Issuer conducts regular assessments of goodwill and intangible assets, and changed conditions such as decreased growth or profitability or higher required rate of return may result in that the market value of such intangible asset drops below its historical cost, resulting in that such intangible assets are subject to impairment. If an asset is not considered correctly valued during such impairment test, this can result in a write-down, which could impact solidity as well as, if severe, could reduce the Issuer's equity. This could in turn adversely affect the Group's access to financing, and thus financial position and future prospects.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

Risks related to the identification of profitable investment targets

Growth by acquisition is an integral part of the Company's business model, the success of which is dependent the Company's ability to source, acquire and manage non-listed small and medium sized companies with a turnover of up to SEK 200 million. The identification and assessment of potential investment targets is a lengthy process involving costs for, *inter alia*, financing as well as legal, technical and financial advisory services. To a large extent, such costs are incurred also where a potential acquisition is not completed.

The Issuer is not dependent on new acquisitions in order to maintain profit. However, the Issuer's long-term success depends on the ability to identify suitable and attractive investment targets focusing on long-term, value-adding development and to an attractive purchase price and that such targets meet the Issuer's risk appetite in relation to its investment portfolio. There is a risk that investment targets meeting such criteria cannot be identified, or that the Issuer is unable to make the required investment on acceptable terms or at all. A failure to identify and invest in attractive investment targets or failure to address suitable business opportunities in new markets could lead to the Issuer failing to pursue the desired or most favourable growth strategy, which could have adverse effects on the Issuer's financial position and future prospects.

Furthermore, the Issuer operates on a market where several other market participants undertake business activities similar to the Issuer's, such as entrepreneurs, industrial operators, investment companies and venture capital companies. As the Issuer's business concept pertains operational involvement in the companies acquired, the Issuer mainly targets the same category of investment companies as entrepreneurs and industrial operators rather than by venture capital companies and investment companies. There is a risk that the Issuer is unable to place bids in a competitive manner or that the seller opts to sell to a different buyer. Furthermore, such competing market participants may have greater financial, technical, marketing and organisational resources than the Issuer or be better equipped to complete acquisitions which could lead to the Issuer losing favourable and suitable investment opportunities. Should the Issuer fail to win bid processes or maintain its position as a preferred buyer on the market, this could result in lower revenues and profitability that expected in relation to its investment activities. This could in turn adversely affect the availability of equity financing for the Issuer and the Issuer's financial position and future prospects.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, especially over a prolonged period of time, the Issuer considers the potential negative impact to be *low*.

Risks relating to the Group Companies, their industries and markets and macro-economic risks

The Issuer's business model depends on the successful investment in a portfolio of diverse non-listed companies with certain qualifications, targeting a wide variation of customers, including consumers. The Issuer's current nine Group Companies are engaged in a number of different segments and offers its products on numerous geographical

markets. Operating within the two business segments “Industry” (Sv. *Industri*) and “Trading and Services” (Sv. *Handel & Tjänster*), the Group Companies offer, technical components for film equipment, fans for various industrial purposes, translation services, e-commerce services for electrically powered personal vehicles, agricultural surveillance and monitoring systems, advanced mixing and application of colour, such as powder coatings, for industry purposes, products and services within pressing and stamping of sheet steel components from various materials as well as plateau clay for use in horticultural growth media and related products. The success of the Issuer is dependent on the development in each Group Company, and is therefore dependent on continuous demand for the Group Companies’ products and services, which demand depends on factors such as functionality, quality, and price as well as general market demand. Furthermore, certain macroeconomic risks apply to Group Companies across all segments, such as inflation, consumer spending power, investments in the industrial sector, volatility on the capital markets, technological development and the regulatory and political development.

While the materialisation of a risk in relation to a specific Group Company would not necessarily materially affect the Issuer’s results of operation and financial position, a risk that impact several Group Companies regardless of sector could have a significant impact on the financial results of a number of Group Companies, thereby reducing their ability to make distributions to the Issuer or could reduce such Group Companies’ reported value, or even insolvency. For instance, and as elaborated under risk factor “*Potential losses due to the outbreak of the coronavirus and component shortages*” above, global trends affecting supplier chains could severely impact the Group Companies operations and ability to offer its products and services. Should the development deteriorate in one or more Group Companies simultaneously or otherwise in an unforeseen manner, it would have a material adverse effect on the Issuer’s results of operation and financial position.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

Risks related to dependence on suppliers, third parties, distributors and dealers

The Group Companies’ ability to maintain and increase its respective market shares depends on the ability to continuously supply its products to the market on a timely basis. This is particularly important for Nordbutiker, Luda.Farm AB (“**Luda.Farm**”), Åkerstedts Verkstads AB (“**Åkerstedts**”), Pexymek AB (“**Pexymek**”) and Thor Ahlgren AB (“**Thor Ahlgren**”), all of which depend on delivery of goods and components in order to deliver and manufacture products to its customers.

Delivery in a timely manner is particularly important for Nordbutiker, being an online merchant of targeting customers. Key products being out of stock could lead to customers turning to a different online merchant to the benefit of Nordbutikers’ competitors. In addition, Nordbutikers’ goods are typically paid for by granting advance payments to the supplier, which means that the corresponding capital is tied-up during the relevant delivery period until the relevant product could be sold to the end-customer. Consequently, should delivery be delayed or delivery failures extend over a prolonged period of time, it could lead to Nordbutiker losing customers and thus market shares, as well as result in that capital is tied-up when needed elsewhere in the operations and therefore cannot be utilised in an efficient manner. This could in turn negatively affect the Group’s business and results of operation.

Furthermore, the operations carried out by Åkerstedts consisting of the development, manufacturing and marketing of industrial fans for the industrial sector including ventilation solutions, are dependent on continuous supply of components and well-functioning supply chains. In order to tailor its offering and end-product to the relevant customer – which is the main competitive advantage of Åkerstedts – Åkerstedts relies partly on the timely as well as accurate fulfilment of contractual obligations by suppliers. Also Pexymek, being a manufacturer and supplier of products and services within pressing and stamping of sheet steel components from various materials, is dependent on continuous supply of components and well-functioning supply chains. Supplies for Åkerstedts and Pexymek must also meet advanced quality and technical standards. There is a risk that interruptions in supply chains could reduce Åkerstedts’ and Pexymek’s production, delivery and distribution and any quality issues could have adverse effects on such companies’ services as well as reputation.

There is also a general risk that interruptions in the supplier chains are difficult to predict, such as in case of extraordinary events including fires, hazards, strikes or storage facility damages, or, as described under risk factor “*Potential losses due to the outbreak of the coronavirus and component shortages*” above, global trends such as component shortage. Furthermore, measures that the Group or third parties have in place to mitigate such risks, such as insurance coverage or security systems, may prove to be insufficient or ineffective.

Should the Group’s suppliers fail, regardless of cause, to provide products and services in a timely or accurate manner, on commercially reasonable terms, or at all, it could severely disrupt the Group Companies’ operations and cause the Group Companies to breach its contractual obligations vis-à-vis customers and counterparties. This could in turn adversely affect the ability to receive payment under customer contracts result in contractual liability for delayed deliveries and cause reputational damage, all of which could have a material adverse effect on the Group’s business and results of operations.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise the Issuer considers the potential negative impact to be *high*.

Risks related to changes in technology and customer preferences

The products and services offered by the Group Companies are to a certain extent dependent on advanced or new technology, such as the surveillance products for smart farming offered by Luda.Farm, the online retail platforms maintained by Nordbutiker as well as artificial intelligence used for translation services within the Group Company Lingua Communication Nordic AB (“**Linguacom**”).

For the Group Companies’ products and services to remain attractive, profitable and competitive, the products and services must be continuously developed and adapted to changes as regards demand, quality, function, customer preferences, regulations and new technological advances, the cost of which may be difficult to predict. The Group is therefore dependent on its ability to identify and predict new trends and developments as well as to adapt to such new trends and developments in a timely and cost-efficient manner. Furthermore, action taken to adapt to new trends and developments may prove costly or inefficient. New technology may also disrupt the relevant Group Company’s business model or sector, providing entirely new ways of satisfying a customer need. Also where certain activities of the Group are less characterized by technological change, there is a risk that competitors develop stronger offerings, and that any technology used by the Group Companies is surpassed, which could render the Group’s products and services less competitive or profitable.

Should any of the risks described above materialise in relation to several Group Companies, it could have a material adverse effect on the Issuer’s results of operation and future prospects.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, especially over a prolonged period of time, the Issuer considers the potential negative impact to be *medium*.

III. Legal, regulatory, reputational and internal control risk

Risks related to processing of personal data

In the course of the processing of personal data, the Group is subject to applicable data processing laws including the EU General Data Protection Regulation (EU 2016/679) (“**GDPR**”). The Group processes personal data as regards, for instance, its employees and customers (including consumers). In relation to the operations carried out by Nordbutiker, sales are made directly to consumers meaning that Nordbutiker to a large extent processes personal data within its operations. Also the operations carried out within Luda.Farm, including surveillance systems, could be at risk involving the processing of personal data. The Group is subject to a risk that personal data is subject to unauthorised disclosure, is lost, or otherwise erroneously processed in violation of the GDPR or other applicable rules concerning data protection and privacy, either by the Group or by a third party data processor contracted by the Group.

Furthermore, the application and interpretation of requirements under the GDPR is continuously evolving and there is a risk that future regulatory developments lead to the Group having to take further actions to improve its

current data protection routines in order to be compliant. Such actions may be costly and actions taken may prove to be insufficient.

If the Group fails to comply with applicable data protection regulations including the GDPR, it could lead to significant administrative fines, claims for damages and disputes with administrative bodies, entities or individuals. Subject to the circumstances in each individual case, a violation of the GDPR could lead to the Group being subject to administrative fines up to a maximum of the higher of (i) four (4.00) per cent. of the Group's total worldwide annual turnover, and (ii) EUR 20 million. During the financial year from January to December 2019, the Group's net turnover amounted to approximately SEK 164 million (approximately EUR 16.3 million). Non-compliance with data protection regulations could also result in negative publicity and reputational damage.

Should any of the above risks materialise, it would have a significant negative effect on the Group's business and results of operation as well as, in the long turn, financial position and could also harm the Group's reputation.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise the Issuer considers the potential negative impact to be *high*.

Risks related to regulatory requirements, permits and authorisations

The Group Companies' products are sold on markets in several different jurisdictions and are therefore required to meet certain standards and legal requirements applicable in such jurisdictions. Furthermore, certain products are classified as hazardous goods when under transportation, and other products are required to carry CE markings according to Directive 2011/65/EU. Furthermore, the Group Company Thor Ahlgren AB is subject to demanding certification standards, such as the IATF 16949 quality certificate. Consequently, certain requirements apply in relation to the products sold and distributed by the Group Companies, and new or increased requirements may be implemented in the future. Should the Group Companies fail to adhere to relevant requirements or fail to identify and address any future requirements, it could lead to increased costs due to, *inter alia*, updating of products, production stoppages and delayed deliveries as well as reputational damage and a risk for actions being taken by supervisory authorities. Furthermore, new or increased legal requirements or regulations with which the Group must comply could be disadvantageous for the Group and result in, *inter alia*, increased costs and administrative burden, less advantageous tax conditions, declining sales of the Group Companies' products, as well as that restructurings are required or that product offerings must be redesigned. This would in turn adversely affect the Group's business and results of operation.

Linguacom's services are to a certain extent offered to public authorities whereby regulations regarding, *inter alia*, anti-corruption, bribery and public procurement must be complied with. Should Linguacom fail to comply with such regulations or standards, it could lead to adverse effects on the Group's reputation as well as administrative sanctions or remedies, which in turn could negatively impact the Group's business and results of operation.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

Environmental risks

The Group Companies Färg-In AB ("**Färg-In**") and Thor Ahlgren carry out operations that are subject to environmental laws and regulations, for example, the Swedish Environmental Code (Sv. *miljöbalken*) as well as regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). At present, no Group Company conducts licensable activities according to the Swedish Environmental Code (Sv. *tillståndspliktig verksamhet*). However, certain operations conducted by Färg-In and Thor Ahlgren must be notified to the relevant supervisory authority (Sv. *anmälningspliktig verksamhet*) meaning that the Group's activities to some extent are supervised. There is a risk that future operations may require a license resulting in that the supervisory scope is extended, or that future operations otherwise lead to a need for internal control measures resulting in the Group incurring additional costs and expenses.

Furthermore, the Group may be liable for contaminations arising on property owned or leased by the Group Companies from time to time. According to the Swedish Environmental Code, the business operator, either the former or present, may be held responsible for environmental contamination, until such contamination have ceased or been remedied. However, if such business operator is unable to perform or pay for remediation of a contaminated property, the party owning the property, or that has acquired the property is, as a main rule, responsible for the remediation. Consequently, there is a risk that Group Companies are held liable in relation to contaminations on any future acquired property caused by previous business operators, as well as that the Group Companies as business operators are held liable for contaminations, and are required to take remediation measures. At present, contaminations have been identified at a property where Färg-In is a business operator, as well as a property owned by Thor Ahlgren, and there is a risk that either of the Group Companies could be held liable for remediation measures in the future. There is a risk that the Group also in the future will be charged for any costs for environmental remediation, that such responsibility may not fall within the scope of insurance coverage and that the Group will need to allocate more resources, internal as well as external, to handle any such upcoming remediation claims. This could in turn have an adverse impact on the Group's business as well as results of operation and, in turn, financial position.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

Product liability and warranties

Several Group Companies manufactures and/or deliver products that, if handled incorrectly, can cause personal injury and material damage for customers. Furthermore, as certain of the Group Companies' products are delivered to be integrated as components in other products, there is a risk that the Group Companies are held liable for personal injury caused by the final product into which the relevant product is integrated. In addition, the Group Companies are subject to the general risk for complaints in the event that the products delivered are faulty. Consequently, the Group Companies could be subject to claims regarding product liability, product safety, warranty or other quality issues due to incorrect handling, faults and defects, irrespective of whether it is caused by such Group Company or a third party. The Group may also be required to carry out a product recall in the event that the products have defects that cause or could be suspected to cause, damage or personal injuries to individuals or property, irrespective of negligence. There can be no assurance that all products delivered by the Group are free from faults and defects, and there is a risk that the Group in the future will be liable in relation to product liability, product safety, warranty or other quality issues and that the Group's insurance coverage at such time is not sufficient to cover loss incurred as a result of such claims.

Faults and defects in the Group's products may also be caused by faults and defects in components purchased from the Group's suppliers, and there is a risk that the relevant supplier cannot compensate the Group in full for the loss incurred under claims relating to faulty or defect products. Consequently, liability claims or other claims relating to faulty or defect products, irrespective of whether actual damage or injury has arisen, may harm the Group Companies' reputation and brand, result in investigation costs in relation to warranty claims, indemnification under customer contracts, divert management's attention from the day-to-day business, and therefore have a material negative impact on the Group's business and financial position.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

Risks related to legal and administrative proceedings

The Group Companies may in its ordinary course of business and from time to time be involved in claims, disputes and legal proceedings. The Group Companies may for instance be involved in disputes relating to customer complaints, employment issues, product liability and product safety claims, anti-trust claims, faulty or delayed delivery claims as well as any legal proceedings being the result of authority supervision, such as tax proceedings or claims. The Issuer may, on the other hand, for instance rather be involved in disputes regarding payment of

earn-out liabilities, employment issues and claims under acquisition guarantees or warranties. Consequently, there is a risk that the Issuer and the Group Companies may be involved in legal or administrative disputes and proceedings, which could be costly, time consuming, divert the management's attention from the day-to-day operations as well as result in severe reputational damage.

The Issuer has in the past been subject to disputes and have as well an ongoing dispute in relation to warranty breaches under the share transfer agreement relating to Linguacom. The initial dispute led to mutual claims where the sellers of Linguacom initiated legal court proceedings in order to obtain payment of the purchase price whereas the Issuer has claimed purchase price reduction due to the warranty breach. The proceedings have required significant resources and have been both lengthy and costly. Should the Group succeed to defend its claim, the claimed amount would be set-off against the vendor loan and earn-out liabilities, currently booked as balance sheet liabilities, which means that a failure to defend such claim would not impact the Group's results of operation. However, there can be no assurance that the Group is not involved in legal disputes and proceedings in the future, and preparations, disputes and the outcome of initiated proceedings can be lengthy and costly and that the outcome may be difficult to predict. In the event of a negative outcome in a major legal or administrative proceeding, regardless if based on a ruling or a settlement, the Group may be subject to significant payment liability. Furthermore, costs relating to disputes and mediation proceedings can be significant. Should the Issuer and/or the Group become involved in disputes or other types of legal proceedings, this could lead to significant costs and reputational damage which could have a material adverse effect on the Group's results of operation and financial position.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

IV. Social and governance risk

Risks relating to key personnel and employees

The Issuer's management team consists of a limited number of key employees being the CEO and the CFO (advising on consultancy basis). Such members of the Issuer's management team are typically members of the board of directors as well as, to a limited extent, part of the management teams of the Group Companies. Hence, in order to manage the Group Companies in line with the Issuer's investment strategy and business plan, the Issuer and the Group depend on the continued services of the Issuer's as well as Group Companies' key personnel and key employees, as well as the ability to attract, retain and motivate such key personnel and employees. The loss of the services of one or more of such key personnel or employees, without adequate and timely replacement would impair the Group's ability to uphold the contemplated acquisition rate and business development and consequently impair the ability to sustain and increase its growth, maintain sales as well as to manage the business effectively. This could in turn have an adverse effect on the Group's business and future prospects.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise the Issuer considers the potential negative impact to be *medium*.

RISK FACTORS SPECIFIC AND MATERIAL TO THE BONDS

I. Risks relating to the nature of the Bonds

Structural subordination and insolvency of subsidiaries

As mentioned under the risk factor "*Dependency on subsidiaries*", the Issuer is dependent on the receipt of dividends and other distributions from its subsidiaries. In the event of insolvency, liquidation or a similar event relating to one of the Issuer's subsidiaries, all creditors of such subsidiary would be entitled to payment in full out of the assets of such subsidiary before the Issuer – as a shareholder – would be entitled to any payments. Thus, the Bonds are structurally subordinated to the liabilities of such subsidiaries. Defaults by, or the insolvency of, certain subsidiaries of the Issuer may result in the obligation for the Issuer to make payments under financial or performance guarantees in respect of such subsidiaries' obligations or the occurrence of cross defaults on certain

borrowings of the Group. There is a risk that the Issuer and its assets would not be protected from any actions by the creditors of a subsidiary, whether under bankruptcy law, by contract or otherwise.

There is no restriction in the Terms and Conditions in relation to incurring and issuing financial indebtedness ranking *pari passu* with the Bonds (provided however that it has a final maturity date, final redemption date or instalment dates which occur after the final redemption date for the Bonds, and provided that the Incurrence Test (as defined in the terms and conditions for the Bonds) is met) and subordinated to the obligations of the Issuer under the Finance Documents (as defined in the Terms and Conditions). In addition, security may be provided for certain financial indebtedness as set out in the Terms and Conditions. Accordingly, the Company and its subsidiaries may, to a certain extent, incur additional indebtedness and provide further security and guarantees for such indebtedness. Incurring such additional indebtedness and the provision of security and guarantees may reduce the amount (if any) recoverable by Bondholders (as defined in the Terms and Conditions) if the Company is subject to any dissolution, winding-up, liquidation, restructuring (Sv. *företagsrekonstruktion*), administrative or other bankruptcy or insolvency proceedings.

Furthermore, and as part of the transaction security for the Bonds, certain of the Issuer's subsidiaries' shares are pledged. Defaults by, or the insolvency of, such subsidiaries of the Group may result in that such security is enforced and may trigger the occurrence of cross defaults in relation to other borrowings of the Group. This could in turn have a material adverse effect on the Group's results of operation and financial position as well as the Bondholders' recovery under the Bonds.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would occur, the Issuer considers the potential negative impact to be *high*.

Ability to service debt and credit risk

The Issuer's ability to service its debt under the Bonds will depend on the Issuer's ability to have liquid funds in order to meet its payment obligations, which in turn is largely dependent upon the performance of the Group's operations and its financial position. The Group's financial position is affected by several factors of which some have been mentioned above, such as prevailing economic conditions and financial, business, regulatory and other factors.

If the Group's operating income is not sufficient to service its current or future indebtedness, the Group will be forced to take actions such as reducing or delaying its business activities, acquisitions, investments or capital expenditures, selling assets, restructuring or refinancing its debt or seeking additional equity capital.

An increased credit risk for investors will cause the market to charge the Bonds a higher risk premium, which will affect the Bonds' secondary market value negatively. Another aspect of the credit risk is that a deteriorating financial position of the Group will reduce the Group's possibility to receive debt financing at the time of the maturity of the Bonds (see risk factor "*Refinancing risk*" above). This would in turn negatively affect the Issuer's ability to repay the Bonds and maturity.

The Issuer considers that the probability of the risk that the Group will not be able to service debt or affect any of these remedies on satisfactory terms, or at all, is *low*. If the risks would occur, the Issuer considers the potential negative impact to be *medium*.

II. Risks relating to the admission of the Bonds to trading on a regulated market

Liquidity risks and secondary market

Pursuant to the Terms and Conditions, the Issuer has undertaken to have the Bonds admitted to trading on Nasdaq Stockholm or any other regulated market within twelve (12) months after the relevant issue date, but shall use its best effort to procure that the Bonds are admitted to trading within thirty (30) calendar days after such issue date. Furthermore, if the Bonds have not been admitted to trading within sixty (60) days after the relevant issue date, a listing failure would occur, which gives the Bondholders an option to request that all, or only some, of its Bonds are repurchased.

Even if the Bonds are admitted to trading, active trading in the securities may not always occur and thus, there can be no assurance that a liquid market for trading in the Bonds will exist or be maintained. In particular with regard to that the Bonds are traded over-the-counter (OTC), there is a risk for a smaller volume of trades. If a liquid market for trading in the Bonds will not exist or cannot be maintained, it may lead to Bondholders being unable to sell their Bonds when desired or at a price level which allows for a profit comparable to similar investments with an active and functioning secondary market, or can only sell their Bonds at a loss. Consequently, lack of liquidity in the market may have a negative impact on the market value of the Bonds.

It should also be noted that during a given time period it may be difficult or impossible to sell the Bonds (at all or at reasonable terms) due to, for example, severe price fluctuations, close down of the relevant market or trade restrictions imposed on the market.

The Company considers that the probability of the secondary trading in the Bonds being impacted as described above is *low*. If the effects would materialise, the Company considers the potential negative impact as *medium*.

However, if the Bonds are not terminated due to that the cause for termination has ceased or due to any other circumstance mentioned in the Finance Documents, the Agent shall not enforce the Transaction Security. If the Bondholders, without any prior initiative from the Agent or the Issuer, have made a decision regarding termination of the Bonds and enforcement of the Transaction Security in accordance with the procedures set out in Clauses 18 (*Decisions by Bondholders*), 19 (*Bondholders' Meeting*) and 20 (*Written Procedure*), the Agent shall promptly declare the Bonds terminated and enforce the Transaction Security. The Agent is however not liable to take action if the Agent considers cause for termination and/or acceleration not to be at hand, unless the instructing Bondholders in writing commit to holding the Agent indemnified and, at the Agent's own discretion, grant sufficient security for the obligation.

Bondholders are not permitted to transfer Bonds in the United States except (a) subject to an effective registration statement under the Securities Act, (b) to a person that the bondholder reasonably believes is a qualified institutional buyer within the meaning of Rule 144A (“**QIB**”) that is purchasing for its own account, or the account of another QIB, to whom notice is given that the resale, pledge or other transfer may be made in reliance on Rule 144A, (c) outside the United States in accordance with Regulation S under the Securities Act, (d) pursuant to an exemption from registration under the Securities Act provided by Rule 144 thereunder (if available) and (e) pursuant to any other available exemption from registration under the Securities Act, subject to the receipt by the Issuer of an opinion of counsel or such other evidence that the Issuer may reasonably require confirming that such sale or transfer is in compliance with the Securities Act.
- 7.6 For the avoidance of doubt and notwithstanding the above, a Bondholder which allegedly has purchased Bonds in contradiction to mandatory restrictions applicable may nevertheless utilise its voting rights under these Terms and Conditions and shall be entitled to exercise its full rights as a Bondholder hereunder in each case until such allegations have been resolved.

The Consolidated EBITDA shall be adjusted in accordance with paragraphs (a) and (b) of Clause 14.3 (*Calculation Principles*) below.

14.2 **Incurrence Test**

14.2.1 The Incurrence Test is met if:

The Net Interest Bearing Debt shall be measured on the relevant testing date so determined, but include the new Financial Indebtedness provided it is an interest bearing obligation (however, any cash balance resulting from the incurrence of the new Financial Indebtedness shall not reduce Net Interest Bearing Debt).

14.3 Calculation Principles

14.3.2 The figures for Net Interest Bearing Debt and Finance Charges for the Reference Period ending on the last day of the period covered by the most recent Financial Statements shall be used for the Incurrence Test (as applicable), but shall be:

- (a) reduced to reflect any Net Interest Bearing Debt attributable to a disposed entity or which has been repaid, repurchased or otherwise discharged as a result of or in connection with a disposal of an entity (to the extent such Net Interest Bearing Debt is included in the relevant financial statements);
- (b) increased on a *pro forma* basis by an amount equal to the Net Interest Bearing Debt directly attributable to (i) any Financial Indebtedness owed by acquired entities, and (ii) any Financial Indebtedness incurred to finance the acquisition of entities, in each case calculated as if all such debt had been incurred at the beginning of the relevant test period; and
- (c) increased on a *pro forma* basis by an amount equal to the Net Interest Bearing Debt directly attributable to any Financial Indebtedness incurred, calculated as if such debt had been incurred at the beginning of the relevant Reference Period;

however, any cash balance resulting from the incurrence of the new Financial Indebtedness shall not reduce Net Interest Bearing Debt.

- 16.10.1 If an Event of Default has occurred and is continuing the Agent is entitled to, and shall following a demand in writing from a Bondholder (or Bondholders) representing at least 50.00 per cent. of the Adjusted Nominal Amount (such demand may only be validly made by a Person who is a Bondholder on the second Business Day following the day on which the demand is received by the Agent and shall, if made by several Bondholders, be made by them jointly) or following an instruction or decision pursuant to Clause 16.10.6 or 16.10.7, on behalf of the Bondholders, terminate the Bonds and to declare all, but not only some, of the Bonds due for payment immediately or at such later date as the Agent determines (such later date not falling later than twenty (20) Business Days from the date on which the Agent made such declaration).
- 16.10.2 The Agent may not terminate the Bonds in accordance with Clause 16.10.1 by reference to a specific Event of Default if it is no longer continuing or if it has been decided, in accordance with these Terms and Conditions, to waive such Event of Default (temporarily or permanently). However, if a moratorium occurs, the ending of that moratorium will not prevent termination for payment prematurely on the ground mentioned under Clause 16.10.1.
- 16.10.3 If the right to terminate the Bonds is based upon a decision of a court of law or a government authority, it is not necessary that the decision has become enforceable under law or that the period of appeal has expired in order for cause of termination to be deemed to exist.
- 16.10.4 The Issuer is obliged to inform the Agent immediately if any circumstance of the type specified in Clause 16.10.1 should occur. Should the Agent not receive such information, the Agent is entitled to assume that no such circumstance exists or can be expected to occur, provided that the Agent does not have knowledge of such circumstance. The Agent is under no obligations to make any investigations

relating to the circumstances specified in Clause 16.10.1. The Issuer shall further, at the request of the Agent, provide the Agent with details of any circumstances referred to in Clause 16.10.1 and provide the Agent with all documents that may be of significance for the application of this Clause 16.

- 16.10.5 The Issuer is only obliged to inform the Agent according to Clause 16.10.4 if informing the Agent would not conflict with any statute or the Issuer's registration contract with the relevant Regulated Market. If such a conflict would exist pursuant to the listing contract with the relevant Regulated Market or otherwise, the Issuer shall however be obliged to either seek the approval from the relevant Regulated Market or undertake other reasonable measures, including entering into a non-disclosure agreement with the Agent, in order to be able to timely inform the Agent according to Clause 16.10.4.
- 16.10.6 If the Agent has been notified by the Issuer or has otherwise received actual knowledge that there is a default under the Finance Documents according to Clause 16.10.1, the Agent shall (i) notify, within five (5) Business Days of the day of notification or actual knowledge, the Bondholders of the default and (ii) decide, within twenty (20) Business Days of the day of notification or actual knowledge, if the Bonds shall be declared terminated. If the Agent has decided not to terminate the Bonds, the Agent shall, at the earliest possible date, notify the Bondholders that there exists a right of termination and obtain instructions from the Bondholders according to the provisions in Clause 18 (*Decisions by Bondholders*). If the Bondholders vote in favour of termination and instruct the Agent to terminate the Bonds, the Agent shall promptly declare the Bonds terminated. However, if the cause for termination according to the Agent's appraisal has ceased before the termination, the Agent shall not terminate the Bonds. The Agent shall in such case, at the earliest possible date, notify the Bondholders that the cause for termination has ceased. The Agent shall always be entitled to take the time necessary to consider whether an occurred event constitutes an Event of Default.
- 16.10.7 If the Bondholders, without any prior initiative to decision from the Agent or the Issuer, have made a decision regarding termination in accordance with Clause 18 (*Decisions by Bondholders*), the Agent shall promptly declare the Bonds terminated. The Agent is however not liable to take action if the Agent considers cause for termination not to be at hand, unless the instructing Bondholders agree in writing to indemnify and hold the Agent harmless from any loss or liability and, if requested by the Agent in its discretion, grant sufficient security for such indemnity.
- 16.10.8 If the Bonds are declared due and payable in accordance with the provisions in this Clause 16, the Agent shall take every reasonable measure necessary to recover the amounts outstanding under the Bonds.

- 16.10.10 If the Bonds are declared due and payable in accordance with this Clause 16, the Issuer shall redeem all Bonds with an amount per Bond equal to the applicable Call Option Amount for the relevant period (plus accrued but unpaid Interest).

17. DISTRIBUTION OF PROCEEDS

- 17.1 All payments by the Issuer relating to the Bonds and the Finance Documents following a termination of the Bonds in accordance with Clause 16 (*Termination of the Bonds*) and any proceeds received from an enforcement of the Transaction Security shall be made and/or distributed in the following order or priority:
- (a) *firstly*, in or towards payment *pro rata* of (i) all unpaid fees, costs, expenses and indemnities payable by the Issuer to the Agent, (ii) other costs, expenses and indemnities relating to the acceleration of the Bonds or the protection of the bondholders' rights, (iii) any non-reimbursed

costs incurred by the Agent for external experts, and (iv) any non-reimbursed costs and expenses incurred by the Agent in relation to a bondholders' meeting or a written procedure;

- (b) *secondly*, in or towards payment *pro rata* of accrued but unpaid interest under the Bonds (interest due on an earlier Interest Payment Date to be paid before any interest due on a later Interest Payment Date);
- (c) *thirdly*, in or towards payment *pro rata* of any unpaid principal under the Bonds; and
- (d) *fourthly*, in or towards payment *pro rata* of any other costs or outstanding amounts unpaid under these Terms and Conditions.

Any excess funds after the application of proceeds in accordance with (a) to (d) above shall be paid to the Issuer.

- 17.2 If a Bondholder or another party has paid any fees, costs, expenses or indemnities referred to in Clause 17.1(a), such Bondholder or other party shall be entitled to reimbursement by way of a corresponding distribution in accordance with Clause 17.1(a).
- 17.3 Funds that the Agent receives (directly or indirectly) on behalf of Secured Parties in connection with the termination of the Bonds or the enforcement of any or all of the Transaction Security constitute escrow funds (Sw. *redovisningsmedel*) according to the Escrow Funds Act (Sw. *lag (1944:181) om redovisningsmedel*) and must be held on a separate interest bearing account on behalf of the Secured Parties. The Agent shall promptly arrange for payments to be made to the Bondholders in such case. The Agent shall arrange for payments of such funds in accordance with this Clause 17 as soon as reasonably practicable. If the Agent deems it appropriate, it may, in accordance with this paragraph 17.3, instruct the CSD to arrange for payment to the Bondholders.
- 17.4 If the Issuer or the Agent shall make any payment under this Clause 17, the Issuer or the Agent, as applicable, shall notify the Bondholders of any such payment at least fifteen (15) Business Days before the payment is made. Such notice shall specify the Record Date, the payment date and the amount to be paid. Notwithstanding the foregoing, for any Interest due but unpaid the Record Date specified in Clause 10.1 shall apply.

- 18.2 Any request from the Issuer or a Bondholder (or Bondholders) representing at least 10.00 per cent. of the Adjusted Nominal Amount (such request may only be validly made by a Person who is a Bondholder on the Business Day immediately following the day on which the request is received by the Agent and shall, if made by several Bondholders, be made by them jointly) for a decision by the Bondholders on a matter relating to the Finance Documents shall be directed to the Agent and dealt with at a Bondholders' Meeting or by way of a Written Procedure, as determined by the Agent. The Person requesting the decision may suggest the form for decision making, but if it is in the Agent's opinion more appropriate that a matter is dealt with at a Bondholders' Meeting than by way of a Written Procedure, it shall be dealt with at a Bondholders' Meeting.
- 18.3 The Agent may refrain from convening a Bondholders' Meeting or instigating a Written Procedure if (a) the suggested decision must be approved by any Person in addition to the Bondholders and such

Person has informed the Agent that an approval will not be given, or (b) the suggested decision is not in accordance with applicable laws.

This includes, but is not limited to, any amendment to or waiver of the terms of any Finance Documents that does not require a higher majority (other than an amendment permitted pursuant to paragraph (a), (b) or (c) of Clause 21.1), or a termination of the Bonds or the enforcement of the Transaction Security in whole or in part.

18.7 Quorum at a Bondholders' Meeting or in respect of a Written Procedure only exists if a Bondholder (or Bondholders) representing at least 20.00 per cent. of the Adjusted Nominal Amount:

consent. The quorum requirement in Clause 18.7 shall not apply to such second Bondholders' Meeting or Written Procedure.

- 18.9 Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as appropriate.
- 18.10 A Bondholder holding more than one Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- 18.11 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Bondholder for or as inducement to any consent under the Finance Documents, unless such consideration is offered to all Bondholders that consent at the relevant Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.
- 18.12 A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other Bondholders.
- 18.13 All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- 18.14 If a decision shall be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies or (to the knowledge of the Issuer) their Affiliates, irrespective of whether such Person is directly registered as owner of such Bonds. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a Bond is owned by a Group Company or an Affiliate of a Group Company.
- 18.15 Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the Bondholders and published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

19. BONDHOLDERS' MEETING

- 19.1 The Agent shall convene a Bondholders' Meeting by sending a notice thereof to each Bondholder no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons). If the Bondholders' Meeting has been requested by the Bondholder(s), the Agent shall send a copy of the notice to the Issuer.
- 19.2 Should the Issuer want to replace the Agent, it may convene a Bondholders' Meeting in accordance with Clause 19.1 with a copy to the Agent. - 19.4 The Bondholders' Meeting shall be held no earlier than ten (10) Business Days and no later than twenty (20) Business Days from the notice.
- 19.5 If the Agent, in breach of these Terms and Conditions, has not convened a Bondholders' Meeting within five (5) Business Days after having received such notice, the requesting Person may convene the Bondholders' Meeting itself. If the requesting Person is a Bondholder, the Issuer shall upon request from such Bondholder provide the Bondholder with necessary information from the register kept by the CSD and, if no Person to open the Bondholders' Meeting has been appointed by the Agent, the meeting shall be opened by a Person appointed by the requesting Person.
- 19.6 At a Bondholders' Meeting, the Issuer, the Bondholders (or the Bondholders' representatives/proxies) and the Agent may attend along with each of their representatives, counsels and assistants. Further, the directors of the board, the managing director and other officials of the Issuer and the Issuer's auditors may attend the Bondholders' Meeting. The Bondholders' Meeting may decide that further individuals may attend. If a representative/proxy shall attend the Bondholders' Meeting instead of the Bondholder, the representative/proxy shall present a duly executed proxy or other document establishing its authority to represent the Bondholder.
- 19.7 Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in person.

20. WRITTEN PROCEDURE

- 20.1 The Agent shall instigate a Written Procedure (which may be conducted electronically) no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such Person who is registered as a Bondholder on the Business Day prior to the date on which the communication is sent. If the Written Procedure has been requested by the Bondholder(s), the Agent shall send a copy of the communication to the Issuer.
- 20.2 Should the Issuer want to replace the Agent, it may send a communication in accordance with Clause 20.1 to each Bondholder with a copy to the Agent.
- 20.3 A communication pursuant to Clause 20.1 shall include (a) each request for a decision by the Bondholders, (b) a description of the reasons for each request, (c) a specification of the Business Day on which a Person must be registered as a Bondholder in order to be entitled to exercise voting rights (such Business Day not to fall earlier than the effective date of the communication pursuant to Clause 20.1), (d) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney, and (e)

the stipulated time period within which the Bondholder must reply to the request (such time period to last at least ten (10) Business Days but not more than twenty (20) Business Days from the communication pursuant to Clause 20.1). If the voting shall be made electronically, instructions for such voting shall be included in the communication.

- 20.4 If the Agent, in breach of these Terms and Conditions, has not instigated a Written Procedure within five (5) Business Days after having received such notice, the requesting Person may instigate a Written Procedure itself. If the requesting Person is a Bondholder, the Issuer shall upon request from such Bondholder provide the Bondholder with necessary information from the register kept by the CSD.
- 20.5 When the requisite majority consents of the Adjusted Nominal Amount pursuant to Clauses 18.5 and 18.6 have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 18.5 or 18.6, as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

21. AMENDMENTS AND WAIVERS

- 21.1 The Issuer and the Agent and/or the Security Agent (as applicable) (in each case acting on behalf of the Bondholders) may agree to amend the Finance Documents or waive any provision in the Finance Documents, provided that:
- (a) the Agent and/or the Security Agent (as applicable) is satisfied that such amendment or waiver is not detrimental to the interest of the Bondholders, or is made solely for the purpose of rectifying obvious errors and mistakes;
 - (b) the Agent and/or the Security Agent (as applicable) is satisfied that such amendment or waiver is required by applicable law, a court ruling or a decision by a relevant authority;
 - (c) such amendment or waiver is necessary for the purpose of having the Bonds listed or admitted to trading on a Regulated Market, provided that the Agent and/or the Security Agent is satisfied that such amendment or waiver does not materially adversely affect the rights of the Bondholders; or
 - (d) such amendment or waiver has been duly approved by the Bondholders in accordance with Clause 18 (*Decisions by Bondholders*).
- 21.2 The consent of the Bondholders is not necessary to approve the particular form of any amendment or waiver to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
- 21.3 The Agent shall promptly notify the Bondholders of any amendments or waivers made in accordance with Clause 21.1, setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to the Finance Documents are available on the websites of the Issuer and the Agent. The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority.
- 21.4 An amendment or waiver to the Finance Documents shall take effect on the date determined by the Bondholders Meeting, in the Written Procedure or by the Agent, as the case may be.

22. APPOINTMENT AND REPLACEMENT OF THE AGENT AND THE SECURITY AGENT

22.1 Appointment of Agent and the Security Agent

22.1.1 By subscribing for Bonds, each initial Bondholder:

- (a) appoints the Agent and the Security Agent to act as its agent and security agent (as applicable) in all matters relating to the Bonds and the Finance Documents, and authorises each of the Agent and the Security Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*), or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer including, for the avoidance of doubt, any legal or arbitration proceeding relating to the perfection, preservation, protection or enforcement of the Transaction Security; and
- (b) confirms the appointment of the Security Agent to act as its agent in all matters relating to the Transaction Security and the Transaction Security Documents, including any legal or arbitration proceeding relating to the perfection, preservation, protection or enforcement of the Transaction Security.

22.1.2 By acquiring Bonds, each subsequent Bondholder confirms the appointment and authorisation for the Agent and the Security Agent to act on its behalf, as set forth in Clause 22.1.1.

22.1.3 Each Bondholder shall immediately upon request provide the Agent and the Security Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent or the Security Agent, as applicable), as the Agent or the Security Agent (as applicable) deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. Neither the Agent nor the Security Agent is under no obligation to represent a Bondholder which does not comply with such request.

22.1.4 The Issuer shall promptly upon request provide the Agent and the Security Agent with any documents and other assistance (in form and substance satisfactory to the Agent or the Security Agent, as applicable), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.

22.1.5 Each of the Agent and the Security Agent is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agent's and the Security Agent's respective obligations as agent and security agent (as applicable) under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.

22.1.6 Each of the Agent and the Security Agent may act as agent and/or security agent for several issues of securities issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

22.2 Duties of the Agent and the Security Agent

22.2.1 Each of the Agent and the Security Agent shall represent the Bondholders in accordance with the Finance Documents, including, *inter alia*, holding the Transaction Security pursuant to the Transaction Security Documents on behalf of the Secured Parties and, where relevant, enforcing the Transaction Security on behalf of the Bondholders. Neither the Agent nor the Security Agent is responsible for the contents, execution, legal validity or enforceability of the Finance Documents. The Agent shall keep the latest version of these Terms and Conditions (including any document amending these Terms and Conditions) available on the website of the Agent.

- 22.2.2 Neither the Agent nor the Security Agent is obliged to actively assess or monitor (i) the financial condition of the Issuer or any Group Company, (ii) the compliance by the Issuer of the Finance Documents (unless expressly set out in the Finance Documents) or (iii) whether an Event of Default (or any event that may lead to an Event of Default) has occurred or not. Until it has actual knowledge to the contrary, each of the Agent and the Security Agent is entitled to assume that no Event of Default has occurred.
- 22.2.3 Each of the Agent and the Security Agent may assume that any information, documentation and evidence delivered to it is accurate, legally valid, enforceable, correct, true and complete unless it has actual knowledge to the contrary, and neither the Agent nor the Security Agent have to verify or assess the contents of any such information, documentation or evidence. Neither the Agent nor the Security Agent review any information, documents and evidence from a legal or commercial perspective of the Bondholders.
- 22.2.4 The Agent shall upon request by a Bondholder disclose the identity of any other Bondholder who has consented to the Agent in doing so.
- 22.2.5 When acting in accordance with the Finance Documents, each of the Agent and the Security Agent is always acting with binding effect on behalf of the Bondholders. Each of the Agent and the Security Agent shall carry out its duties under the Finance Documents in a reasonable, proficient and professional manner, with reasonable care and skill.
- 22.2.6 Each of the Agent and the Security Agent is entitled to delegate its duties to other professional parties, but each of them shall remain liable for the actions of such parties under the Finance Documents.
- 22.2.7 Each of the Agent and the Security Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other Person, other than as explicitly stated in the Finance Documents.
- 22.2.8 The Agent shall be entitled to disclose to the Bondholders any event or circumstance directly or indirectly relating to the Issuer or the Bonds. Notwithstanding the foregoing, the Agent may if it considers it to be beneficial to the interests of the Bondholders delay disclosure or refrain from disclosing certain information other than in respect of an Event of Default that has occurred and is continuing.
- 22.2.9 Each of the Agent and the Security Agent is entitled to engage external experts when carrying out its duties under the Finance Documents. The Issuer shall on demand by the Agent and/or the Security Agent pay all costs for external experts engaged (a) after the occurrence of an Event of Default, (b) for the purpose of investigating or considering an event which the Agent and/or the Security Agent reasonably believes is or may lead to an Event of Default or a matter relating to the Issuer which the Agent and/or the Security Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents or (c) when the Agent and/or the Security Agent is to make a determination under the Finance Documents. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 17 (*Distribution of proceeds*).
- 22.2.10 The Agent shall enter into agreements with the CSD, and comply with such agreement and the CSD regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.

- 22.2.11 Notwithstanding any other provision of the Finance Documents to the contrary, neither the Agent nor the Security Agent is obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- 22.2.12 If in the Agent's or the Security Agent's (as applicable) reasonable opinion the cost, loss or liability which it may incur (including its respective reasonable fees) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent or the Security Agent (as applicable) may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.
- 22.2.13 Each of the Agent and the Security Agent shall give a notice to the Bondholders (a) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent or the Security Agent under the Finance Documents, or (b) if it refrains from acting for any reason described in Clause 22.2.12.
- 22.2.14 Each of the Agent's and the Security Agent's duties under these Terms and Conditions are solely mechanical and administrative in nature and the Agent and the Security Agent only acts in accordance with these Terms and Conditions and upon instructions from the Bondholders, unless otherwise set out in these Terms and Conditions. In particular, neither the Agent nor the Security Agent is acting as an advisor (whether legal, financial or otherwise) to the Bondholders or any other person.

22.3 Limited liability for the Agent and the Security Agent

- 22.3.1 Neither the Agent nor the Security Agent will be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. Neither the Agent nor the Security Agent shall be responsible for indirect loss.
- 22.3.2 Neither the Agent nor the Security Agent shall be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts addressed to it or if the Agent and/or the Security Agent has acted with reasonable care in a situation when the Agent and/or the Security Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 22.3.3 Neither the Agent nor the Security Agent shall be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by it to the Bondholders, provided that the Agent and/or the Security Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by it for that purpose.
- 22.3.4 Neither the Agent nor the Security Agent shall have any liability to the Bondholders for damage caused by it acting in accordance with instructions of the Bondholders given in accordance with Clause 18 (*Decisions by Bondholders*).
- 22.3.5 Any liability towards the Issuer which is incurred by the Agent or the Security Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.
- 22.3.6 The Agent is not liable for information provided to the Bondholders by or on behalf of the Issuer or by any other person.

22.4 Replacement of the Agent and the Security Agent

- 22.4.1 Subject to Clause 22.4.6, each of the Agent and the Security Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent and/or Security Agent at a Bondholders' Meeting convened by the retiring Agent and/or Security Agent or by way of Written Procedure initiated by the retiring Agent and/or Security Agent.
- 22.4.2 Subject to Clause 22.4.6, if the Agent and/or the Security Agent is insolvent or becomes subject to bankruptcy proceedings, the Agent and/or the Security Agent (as applicable) shall be deemed to resign as Agent and/or Security Agent (as applicable) and the Issuer shall within ten (10) Business Days appoint a successor Agent and/or Security Agent (as applicable) which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 22.4.3 A Bondholder (or Bondholders) representing at least 10.00 per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice may only be validly given by a Person who is a Bondholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and/or the Security Agent (as applicable) and appointing a new Agent and/or Security Agent (as applicable). The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent and/or the Security Agent be dismissed and a new Agent and/or Security Agent (as applicable) appointed.
- 22.4.4 If the Bondholders have not appointed a successor Agent and/or successor Security Agent within ninety (90) calendar days after (a) the earlier of the notice of resignation was given or the resignation otherwise took place or (b) the Agent and/or the Security Agent was dismissed through a decision by the Bondholders, the Issuer shall appoint a successor Agent and/or Security Agent (as applicable) which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 22.4.5 The retiring Agent and/or Security Agent (as applicable) shall, at its own cost, make available to the successor Agent and/or the successor Security Agent (as applicable) such documents and records and provide such assistance as the successor Agent and/or successor Security Agent may reasonably request for the purposes of performing its functions as Agent and or Security Agent (as applicable) under the Finance Documents.
- 22.4.6 The Agent's and the Security Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and/or successor Security Agent (as applicable) and acceptance by such successor Agent and/or successor Security Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent and/or the retiring Security Agent (as applicable).
- 22.4.7 Upon the appointment of a successor, the retiring Agent and/or the retiring Security Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent and/or Security Agent (as applicable). Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent and/or Security Agent.
- 22.4.8 In the event that there is a change of the Agent and/or the Security Agent in accordance with this Clause 22.4, the Issuer shall execute such documents and take such actions as the new Agent and/or Security Agent may reasonably require for the purpose of vesting in such new Agent and/or the new Security Agent (as applicable) the rights, powers and obligation of the Agent and/or the Security Agent

and releasing the retiring Agent and/or the retiring Security Agent (as applicable) from its respective further obligations under the Finance Documents. Unless the Issuer and the new Agent and/or the new Security Agent agrees otherwise, the new Agent and/or the new Security Agent shall be entitled to the same fees and the same indemnities as the retiring Agent and/or the retiring Security Agent (as applicable).

23. APPOINTMENT AND REPLACEMENT OF THE ISSUING AGENT

- 23.1 The Issuer appoints the Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Bonds.
- 23.2 The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the old Issuing Agent retires or is dismissed. If the Issuing Agent is insolvent, the Issuer shall immediately appoint a new Issuing Agent, which shall replace the old Issuing Agent as issuing agent in accordance with these Terms and Conditions.

24. APPOINTMENT AND REPLACEMENT OF THE CSD

- 24.1 The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to the CSD.
- 24.2 The CSD may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD retires or is dismissed and provided also that the replacement does not have a negative effect on any Bondholder or the listing of the Bonds listed on a Regulated Market. The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Swedish Securities Market Act (*Sw. lag (2007:528) om värdepappersmarknaden*).

25. NO DIRECT ACTIONS BY BONDHOLDERS

- 25.1 A Bondholder may not take any steps whatsoever against the Issuer or a Group Company or with respect to the Transaction Security to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (*Sw. företagsrekonstruktion*) or bankruptcy (*Sw. konkurs*) (or its equivalent in any other jurisdiction) of the Issuer or another Group Company in relation to any of the liabilities of the Issuer or a Group Company under the Finance Documents. Such steps may only be taken by the Agent.
- 25.2 Clause 25.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 22.1.2), such actions within a reasonable period of time and such failure or inability is continuing, however, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or by any reason described in Clause 22.2.12, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 22.2.13 before a Bondholder may take any action referred to in Clause 25.1.
- 25.3 The provisions of Clause 25.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 12.5 (*Mandatory repurchase due to a Change of*

Control, a De-listing Event or a Listing Failure Event (put option)) or other payments which are due by the Issuer to some but not all Bondholders.

26. TIME-BAR

- 26.1 The right to receive repayment of the principal of the Bonds shall be time-barred and become void ten (10) years from the relevant Redemption Date. The right to receive payment of Interest (excluding any capitalised interest) shall be time-barred and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been time-barred and has become void.
- 26.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*Sw. preskriptionslag (1981:130)*), a new time-bar period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to the right to receive payment of Interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the time-bar period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

If the Issuer does not promptly issue a press release and the Agent considers it necessary to issue a press release containing such information before it can lawfully send a notice containing such information to the Bondholders, the Agent shall be entitled to issue such press release.

28. **FORCE MAJEURE AND LIMITATION OF LIABILITY**

The reservation in respect of strikes, lockouts, boycotts and blockades applies even if the Agent, the Security Agent or the Issuing Agent itself takes such measures, or is subject to such measures.
- 28.2 The Issuing Agent shall have no liability to the Bondholders if it has observed reasonable care. The Issuing Agent shall never be responsible for indirect damage with exception of gross negligence and wilful misconduct.
- 28.3 Should a Force Majeure Event arise which prevents the Agent, the Security Agent or the Issuing Agent from taking any action required to comply with the Finance Documents, such action may be postponed until the obstacle has been removed.
