RISK FACTORS

The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Bonds in order to make an informed investment decision. The risk factors set forth below are therefore limited to risks that, in the meaning of Regulation (EU) 2017/1129, are material and specific to the Company, the Group and the Bonds.

The manner in which the Company, the Group or the Bonds are affected by each risk factor is illustrated by way of an evaluation of the materiality of the relevant risk factor based on the probability of it occurring and the expected magnitude of its negative impact, for the purpose of which the probability is estimated as “low”, “medium” or “high” and the magnitude of negative impact if it would occur as “low”, “medium” or “high”. The most material risk factors in a category are presented first under that category, whereas subsequent risk factors in the same category are not purported to be ranked in order of materiality.

RISK FACTORS SPECIFIC AND MATERIAL TO THE GROUP

Risks related to Prisma’s industry, market and business

Risks related to changes in the real estate market and uncertainty in real estate valuations

The most important market related factors for the valuation of the Group’s properties are the supply and demand for commercial properties, as well as the return that investors are willing to accept when acquiring properties. The real estate market is affected by the vacancy rate in the market, which in turn is affected by several factors at both a micro and macro level, such as negative changes in the general economic climate, including those caused by the introduction of trade barriers such as tariffs, changes in behaviour due to increased e-commerce or a pandemic, as well as other external factors. The available supply of commercial real estate is also affected by construction, operational and maintenance work. These types of market related aspects and potential changes are such that the Company typically has no control over. A decrease in the value of the properties due to changes in market-related factors would adversely affect the valuation of the Group’s property portfolio, and thus also the Group’s financial position. A weakened financial position may in turn have a negative impact on the Company’s business, including the ability to generate growth.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *high*.

Additional factors that affect the Company’s risk exposure in relation to property valuations include forward-looking assumptions that are subject to uncertainty. This includes, for example, assumptions concerning rent levels, occupancy rates, operating costs, the condition of the properties and market-specific assumptions relating to, for example, macroeconomic development, general economic trends, regional economic development, employment rates, supply and production rates for new properties, changes in infrastructure, inflation and interest rate levels in Sweden. Therefore, there is a risk that underlying assumptions in previous or future valuations of the Group’s investment properties prove to

be incorrect, which may entail that Prisma's valuations do not reflect a future sales value. Prisma uses external valuation consultants to value the Group's properties, and the property value is determined by both location price and return value. If the underlying assumptions and parameters for the valuation of the Group's property portfolio change or turn out to be incorrect, it could have a material adverse impact on the Group's earnings and financial position. A weakened financial position may in turn have a negative impact on the Company's business, including the ability to generate growth.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *high*.

Risks related to past or future acquisitions

The Group has made several property acquisitions since its establishment, both through direct acquisitions of properties and/or land, and indirectly through acquisitions of shares in property-owning companies. Real estate transactions form a central part of the Group's business and the Group regularly evaluates potential property acquisitions that are deemed to be in line with the Group's acquisition strategy and strategic objectives. Property transactions are associated with certain risks and uncertainties. In relation to property acquisitions, for example, there may be uncertainty regarding the management of tenants, costs for environmental remediation, personnel, renovation and management of technical problems, decisions by authorities and the occurrence of disputes related to the acquisition or the condition of the property. There is also a risk that unforeseen costs arise for the Group in connection with completed or future acquisitions and that such unidentified risks may have a negative impact on the Group's earnings and cash flow. Future acquisitions may also include commitments from the Group to pay additional consideration to sellers of properties. Such additional considerations may have a negative impact on the Group's earnings and cash flow.

Prisma regularly engages reputable and competent advisors to support the Group in major acquisition processes. However, in connection with less complex acquisitions of land directly from municipalities, Prisma may carry out the acquisition without the support of external advisors, in whole or in part. Prisma believes that the Group, together with its advisors, usually succeeds in forming a good view of current acquisition targets. However, there is always a risk that Prisma makes incorrect assessments in connection with the due diligence review carried out in connection with property acquisitions, or is unable to identify all relevant risks associated with a particular acquisition. For example, in connection with property acquisitions, assessments are made of the soil conditions at the acquisition site in question in order to evaluate, *inter alia*, the presence of environmental toxins, the need for remediation, and the load-bearing capacity of the soil. It is not certain that the investigations carried out identify all deficiencies in the soil. In connection with previous potential property acquisitions, the outcome of the soil investigations conducted by the Group in connection with acquisitions has in some cases led to Prisma choosing not to complete the intended acquisition. If the Group, in connection with its soil investigations, is unable to identify deficiencies in the soil and therefore carries out the acquisition, the Group may have to bear the costs of remedying the deficiencies, for example in the form of decontamination of the soil.

Furthermore, sellers of real estate may have financial difficulties and therefore be unwilling or unable to pay compensation in the form of, for example, warranty claims as a result of defects in the acquired property. In addition, there is always a risk that real estate agents or other parties acting on behalf of the seller act outside of their mandate or provide incorrect information, and, therefore, there is a risk that Prisma will not be able to succeed with its claims for damages against such parties or the seller. In addition, real estate transactions involve subjective assumptions about the future, including the valuation of the existing tenants' long-term payment ability and technical property assumptions, which may prove to be incorrect. Incorrect assessments may lead to impairment requirements, increased costs and that the Group does not achieve expected returns or that returns on its completed investments do not materialise whatsoever, which could have a significant negative effect on the Group's earnings capacity.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Risks related to new development and adaptation projects

Prisma's business primarily consists of the new development of modern properties that are rented out to the Group's tenants and, to a certain extent, the adaptation of existing properties to the tenants' wishes through alterations, additions and tenant adaptations. In order to offer attractive and appropriate properties to its tenants, Prisma carries out ongoing projects in the form of new development and adaptation of entire properties to specific tenants. The properties and land areas that Prisma acquires are often intended to fulfil a specific tenant's needs and shortly after the acquisition, construction projects are commenced in accordance with the tenant's wishes and instructions. Construction is often handled by a few selected contractors and sub-contractors that Prisma engages on market-based industry terms, and with whom Prisma has a long-term collaboration. In addition, the Group occasionally engages local contractors. In the majority of Prisma's construction projects, a main responsible contractor is engaged (Sw. *totalentreprenad*), which means that the Group, in the event of any deficiencies in connection with a construction project, can direct any claims or demands to the main contractor. In connection with the completion of a building, the tenant takes possession of the property. As of 31 March 2026, the Group had ongoing projects of approximately MSEK 919, of which approximately MSEK 365 remain to be invested. As of 31 March 2026, Prisma's portfolio of planned projects for the next three years amounted to approximately MSEK 3,400. New construction and major adaptation projects are associated with costly investments. Investment and project costs may be higher than expected as a result of, for example, delays, faulty constructions, border conflicts, possible workplace accidents, deficiencies in the ground conditions of the Group's properties (e.g., regarding the load-bearing capacity of the ground and pollution) and other unforeseen events, including changes in regulations or zoning plans. There is a risk that such changes in investment and project costs cannot be fully offset by increased rents or reduced costs.

Furthermore, Prisma co-operates with strategic suppliers for the supply of materials and customised solutions in connection with constructions, as well as construction services for various types of work on the properties. Purchases are coordinated to achieve higher quality and reduced costs. Prisma uses established suppliers with whom the Group has good relationships in order to reduce the risk of

unfulfilled commitments by the suppliers. If a particular supplier or contractor is unable to fulfil its agreements, for example by not delivering the right equipment of the right quality at the right time, or if the cooperation with a particular supplier or contractor is interrupted or does not function well, this may lead to significant delays in Prisma's construction projects. Such delays may mean that Prisma's tenants' access to premises is delayed, which may result in additional costs, reduced rental income and reduced cash flow for the Group. In the event that agreements with important suppliers or contractors are terminated at short notice, or if important suppliers or contractors are declared bankrupt or are subject to liquidation, there is also a risk that Prisma will not be able to engage another supplier or contractor on similar terms or at short notice, which may lead to increased costs for supplier or contractor services and cause delays in the projects. In addition, the Group's ability to obtain compensation for deficiencies relating to completed construction projects may be affected if the contractor is declared bankrupt. For example, the contractor Fastec Sverige AB, which was engaged in connection with the construction project on the Group's property Skullen 1, has been declared bankrupt after the completion of the project. The contractor has an insurance coverage amounting to five per cent. of the contracted amount and which is valid during the project's guarantee period, and thus, the possibility for the Group to receive compensation for any deficiencies in relation to the construction project is dependent on the extent of the insurance. If any of the above risks materialise in relation to Prisma's major projects, it may result in increased costs or loss of income for Prisma, which in turn may have a material adverse effect on the Group's financial position or earnings.

The Company assesses that the probability of the risks described above materialising is *medium*. If the risks materialise, the Company assesses that the negative impact is *medium*.

In addition to risks related to suppliers' fulfilment of their commitments, there is a risk that suppliers engaged by Prisma do not fulfil established environmental requirements or working conditions in relation to their conducted work, which risks damaging Prisma's brand and reputation. This may, in turn, have an adverse effect on Prisma's business and future revenue, earnings and ability to achieve its financial targets.

The Company assesses that the probability of the risk described above materialising is *low*. If the risks materialise, the Company assesses that the negative impact is *low*.

Risks related to return on the properties

The Group is dependent on the return from its properties, which is largely affected by the size of rental income, expenses and costs for operational and maintenance work, remodelling and management of the properties, and necessary property investments. Rent levels and, thus, Prisma's rental income are affected by, *inter alia*, the demand and supply of commercial premises. In addition, the Group's rental revenues are affected by the properties' occupancy rate, the development of rent levels and the tenants' payment ability. As per 31 March 2026, the largest tenant (Tokmanni) accounted for 16 per cent. of contracted rental income, and the ten largest tenants accounted for 62 per cent. of the contracted rental income. The weighted average unexpired lease term (WAULT) of the Group amounted to 7.9 years as per 31 March 2026.

Occupancy rates and rent levels are largely determined by general and regional economic trends and are affected by several macro and regional economic factors such as employment trends, changes in infrastructure, population growth and other demographic trends, inflation, interest rates and access to financing. Occupancy rates and rent levels are, like the Group's business in general, also affected by other factors outside of the Group's control, such as the current security situation, including geopolitical instability, wars and conflicts, which are characterised by unpredictability and their ability to develop and escalate rapidly, as well as the direct and indirect long-term effects that this has on the global and Swedish economy.

The Group applies so-called double-net and triple-net agreements in relation to its tenants, which means that the tenants, in addition to the rent, pay for most of the costs associated with the property. The agreement structure means that there is a relatively good cost control and predictability regarding the Group's operational and maintenance costs. Furthermore, Prisma's lease agreements extend over a longer period of time and have been entered into with primarily leading actors within the discount sector (usually larger chains with growth potential), which Prisma believes contributes to creating stable rental income for the Group. If the occupancy rate or rent levels, despite this and due to factors outside of Prisma's control, decline or if the Group's tenants' ability to pay rents or other fees to the Group is reduced, Prisma's financial position and earnings may be adversely affected.

The Company assesses that the probability of the above risk materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *low*.

Prisma operates in a competitive market

A central part of Prisma's business and a significant factor for the Group to be able to achieve its financial targets is the ability to identify and carry out acquisitions within the context of Prisma's acquisition strategy. The real estate market is competitive, where the players' competitiveness is dependent, *inter alia*, on the ability to carry out property acquisitions on favourable terms and to anticipate future changes and trends in the real estate industry. In addition, Prisma competes to attract new and retain existing tenants, depending on factors such as property location, rents, areas, accessibility, quality, tenant satisfaction, convenience and Prisma's reputation. If additional property companies are established in the markets where Prisma operates, the Company's competition would increase, which could affect Prisma's ability to acquire new properties. Furthermore, the Company's competitiveness could be adversely affected if such competitors have greater resources, greater financial capacity to withstand downturns in the real estate market, are better at retaining competent personnel, or can react more rapidly to changes in tenants' needs. Moreover, to the extent that Prisma expands outside of its primary geographic markets in Sweden and Denmark, such as with its recent expansion into Finland, there is a risk that the Company's competitors will be able to take advantage of their local market knowledge to compete with the Company, as illustrated by the Prisma's recent exit from Norway in April 2026. If Prisma cannot compete successfully and fails to carry out acquisitions to an adequate extent, it could have a material adverse effect on Prisma's business and the Company's future growth, earnings and potential to achieve its financial targets.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Risks related to the ability to recruit and retain qualified employees and senior executives

As of 31 March 2026, the Group has 25 employees, and its operations are therefore heavily dependent on a small number of individuals with the relevant experience, skills and expertise, including the executive management and key employees with specialist competences in, *inter alia*, business development and with strong relationships with leading discount retailers. These individuals are central to the implementation of the Group's growth strategy and to the successful development of Prisma's business going forward. Due to the small number of employees in Prisma, large parts of the Group's property management and other administration are outsourced. Each individual employee is therefore of great importance and has a major impact on Prisma's development. If any of the members of Prisma's executive management or other key employees terminate their employment with Prisma, and if Prisma fails to replace them in due time with other employees who can contribute equally to the business, this may cause disruptions in Prisma's business, which may have a material adverse effect on Prisma's growth and, in turn, Prisma's earnings.

Furthermore, it is important for the development of Prisma's business that the Company continuously recruits new, competent employees. Inability to recruit experienced, qualified and educated employees at the right time, or if several of the Group's employees were to terminate their employment at the same time, could have a negative impact on the Group. The loss of key personnel and/or the inability to recruit qualified personnel to an adequate extent may result in the Group being unable to realise valuable business opportunities. This may, in turn, have a material adverse effect on the Group's future business and profitability.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Environmental and environmental technical risks

According to the polluter pays principle under applicable environmental legislation, the operator of the activity that caused pollution is responsible for subsequent remediation. If it is not possible to identify the polluter, or if the polluter cannot be held responsible, the property owner may be held responsible for remediation and related costs. Consequently, there is a risk that Group companies are held liable for contamination on future acquired property caused by previous operators, as well as that Group companies, in their capacity as operators, are held liable for pollution and are required to undertake remediation measures. The Group's tenants include, *inter alia*, Rasta, Preem, Circle K and St1, which operate petrol stations on the Group's properties. Such operations are considered to be sensitive from an environmental perspective and increase the risks of the occurrence of environmental hazardous risks. A change in the purpose of the use of the properties to a more environmentally sensitive activity from an environmental perspective would further increase the risk of the occurrence of environmental related risks.

There is a risk that the costs related to environmental remediation do not fall within the Group's insurance coverage, or that an acquisition agreement with the seller of a contaminated property does not provide adequate protection against liability for environmental contamination, and that the Group will need to allocate more resources, both internal and external, to handle such remediation claims. As of 31 March 2026, the Group owns 8 properties, leases 4 properties and owns 1 leasehold that are included in the Swedish register Method of Surveying Contaminated Sites (Sw. *Metodik för Inventering av Förorenade Områden*) (the MIFO registry) as being potentially contaminated properties, as a result of potentially environmental hazardous activities having been conducted or being conducted on the properties. Due to the presence of petrol stations on these properties, the risk of contamination on all properties has been classified as high. Consequently, in relation to these properties, there is an increased risk that the relevant property holding Group company will be required to investigate, undertake and/or pay for any necessary remediation measures.

Environmental changes increase the risk of severe climate-related events. Floods, storms, fires and similar climate-related events are becoming increasingly common and could, if they occur on or in the vicinity of Prisma's properties, lead to extensive costs for Prisma. In 2023, Prisma conducted a climate risk analysis in relation to the entire property portfolio to identify environmental and environmental technical risks. According to the climate risk analysis, risks related to flooding, more extensive regulatory requirements in relation to energy classification and tenants' increased expectations of emission neutrality have been identified as significant for Prisma's business. Flooding on or near Prisma's properties may result in increased costs in the form of remediation and minimisation of damage, higher insurance premiums and an increased need for the Group to take preventative measures. More extensive regulatory requirements in relation to energy classification as well as tenants' increased expectations of emission neutrality may mean that the market value of the Group's existing properties, which may not meet the increased requirements or expectations, decreases, as well as entailing increased costs for regulatory compliance.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Risks related to unforeseen events affecting the properties and Prisma's business

Prisma may incur substantial losses or costs due to unforeseen events, including, but not limited to, vandalism, burglary or other criminal activity, destruction, fire, water leaks or flooding, attacks or terrorism, hidden defects or deficiencies with respect to acquired properties, soil contamination, natural disasters or extreme weather conditions, pest infestations, or other accidents or incidents. Such unforeseen events may, if they occur in connection with new development projects or Prisma's other construction projects, lead to business interruptions, production delays or other damage, and risk causing significant costs for Prisma. Furthermore, there is a risk that the costs for such events, if they occur when the Group's premises are leased, in whole or in part, cannot be borne by the tenant through, for example, increased rents, and that Prisma therefore, in whole or in part, has to bear the costs for reparation, maintenance, decontamination, restoration or similar measures.

Prisma continuously works to prevent risks associated with, for example, fire, burglary and vandalism, and Prisma has entered into insurance agreements in order to obtain protection against damage that may arise due to, for example, the aforementioned factors. However, there is a risk that the insurance agreements entered into by Prisma, in whole or in part, do not cover the costs that may arise in connection with the aforementioned unforeseen events. There is also a risk that any disputes with the insurance companies with which Prisma has entered into insurance agreements lead to unforeseen costs, among other things in the form of Prisma unexpectedly having to bear the cost of damage or occurred events. If any of the above-mentioned risks materialise, this may give rise to major costs for Prisma, which in turn could result in a negative impact on the Group's operations, earnings or financial position.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *medium*.

In addition, Prisma is subject to risks that may result from pandemics. The effects of future pandemics may cause delays among Prisma's suppliers and contractors, which may adversely affect Prisma's construction projects and lead to increased construction prices. If future pandemics affect the economy, Prisma's tenants' payment abilities may deteriorate, resulting in higher vacancy rates and reduced property values. It could also make it increasingly difficult to obtain necessary financing for Prisma's operations.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *high*.

Risks related to health and safety

Within the industry in which Prisma operates, health and safety risks occur in various forms and degrees, including in connection with the operation of Prisma's properties, construction projects and engineering work. Prisma has a zero-vision regarding workplace accidents and stress-related illnesses, and regularly holds work environment training programmes for project managers and technical managers. However, there are inherent risks in many projects and tasks involving construction and engineering work. Examples of risks on construction sites include falls from heights, collapses, crushing injuries and accidents related to the handling of mobile machinery. In 2023, the number of fatal workplace accidents in Sweden was higher than in many years and, as a result, the occurrence of workplace accidents has received significant political and media attention. If workplace accidents occur in connection with the operation of the Group's properties, construction or engineering work, in addition to resulting in personal injury and material damage, Prisma may be subject to legal proceedings and potentially extensive negative publicity. Such events risk damaging Prisma's brand and reputation, particularly in the event that any deficiencies in working conditions or other occupational health and safety deficiencies are found in connection with the accident, even if the deficiencies are attributable to hired contractors rather than to Prisma. In turn, this may negatively impact the Group's business.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *low*.

Risks related to e-commerce development

E-commerce has developed rapidly and has in recent years taken an increasingly large market share in relation to traditional retail in physical stores. The tenants that Prisma regards as strategic tenants have a main product range that, for various reasons, is not considered suitable for e-commerce. The group of strategic tenants includes Dollarstore, Jysk, Willys and Rusta. A change in the shopping behaviour of customers of Prisma's tenants, which to a greater extent involves a transition from shopping in physical stores to e-commerce, may have a negative effect on the Group's tenants. Such changes and factors may consequently affect the demand for the commercial properties that the Group provides. If the demand for Prisma's commercial properties decreases, it could have a material adverse effect on the Group's future operations and profitability.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Risks related to increased operating costs

The Group's operating costs consist of property management, technical management, tax-related costs, insurance premiums and regular maintenance. During the period 1 January – 31 December 2025 and the period 1 January – 31 March 2026, the operating expenses (net) amounted to MSEK 45 and MSEK 11 respectively. More than 90 per cent. of the Group's lease agreements are so-called "double-net" and "triple-net" agreements, entailing that the tenant, in addition to the rent, pays most of the costs related to the property. The agreement structure means that there is relatively good cost control and predictability regarding the Group's expenses for operation and maintenance work. However, it cannot be guaranteed that any increase in operating costs, directly or indirectly, can be borne by the tenant in accordance with the terms, or through the renegotiation, of the lease agreements. If such risks materialise, the Group's net operating income could be adversely affected.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *low*.

Financial risks

Risks related to refinancing and existing loan covenants

Access to capital, including debt capital, is crucial for Prisma's future growth. The Group utilises both construction credits in connection with the construction of properties and acquisition credits in connection with acquisitions. Prisma currently has no credit rating. In order to finance its operations, the Group has entered into secured financing agreements with *inter alios* Nordea, Swedbank, Danske Bank and Nykredit. The Group also issued corporate bonds in a total amount of MSEK 750. As per 31 March 2026, the total interest-bearing nominal debt amounted to MSEK 5,156 with an average period for capital tie-up of 2.5 years, whereof MSEK 1,800 will mature in the period from 31 March 2026 – 31 March 2027. The facilities are secured by real estate mortgages and/or shares in subsidiaries of Prisma.

However, future developments in the debt market are uncertain and there are numerous factors that affect Prisma's ability to successfully raise debt capital and refinance its debt at its maturity, including

for the purpose of financing the growth of the business. These factors include, *inter alia*, the occurrence of reductions in the value of the Group's properties.

Relevant factors affecting the development of the debt market are inflation, which reached high levels in 2023 and has gradually decreased thereafter, the occurrence of war and interest rates. If one or more of these factors develops in a negative direction, this may cause difficulties for Prisma to raise debt capital. Even if it would be possible for the Group to refinance its outstanding debt, there is a risk that Prisma may not be able to do so on favourable terms. If Prisma is unable to raise borrowed capital when necessary or refinance its debt obligations on favourable terms, or at all, it could have a material adverse effect on the Group's growth potential, existing business, financial situation and earnings.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *high*.

Certain of the Group's existing loan agreements contain obligations which, if unfulfilled, could result in such financing being cancelled and becoming immediately due and payable. In particular, there are clauses in existing loan agreements that, among other things, give the counterparty the right to terminate the agreement if any indebtedness of the Group falls due or otherwise becomes payable prior to its maturity. Consequently, an obligation to repay debt prematurely may adversely affect the Group's financial position and earnings.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Interest rate risk

Prisma is exposed to interest rate risks through its long-term and short-term debt. Interest rate risks refer to the risk that fluctuations in market interest rates adversely affect the Group's earnings, cash flow and financial position. A central factor for the occurrence of interest rate risks is the Company's credit margin and fixed-interest periods according to the loan agreements, whereby longer credit margin and fixed-interest periods mean greater predictability in cash flow, but normally also entail higher interest rate levels. As of 31 March 2026, the Group's nominal value of interest-bearing liabilities amounted to MSEK 5,156, and the average fixed interest period amounted to 2.4 years. Moreover, on the same date, the average interest rate on the Group's interest-bearing debt was 4.06 per cent.

In addition to the size of interest-bearing debts, Prisma's interest expenses are mainly affected by current market interest rates, credit institutions' margins and the Company's strategy regarding fixed interest periods. The interest rate market in Sweden is mainly affected by the expected inflation rate and the Swedish Central Bank's (Sw. *Riksbanken*) policy rate. Increased market interest rates entail higher interest costs, and thus, there is a risk that increases in market interest rates will entail additional costs and lower margins for the Company, which could have a material adverse effect on the Company's financial position and earnings. Increases in interest rates may also have a negative impact on Prisma's ability to finance future property acquisitions.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Credit and counterparty risk

Prisma is exposed to the risk that its counterparties, both financial and commercial, do not fulfil their obligations on time. The credit risk for financial counterparties is related to excess liquidity and the banks' inability to fulfil their obligations, while the credit risk for commercial counterparties is related to unpaid receivables. Prisma's excess liquidity is placed at low risk in deposit accounts and agreements are only entered into with reputable banks with high credit ratings. In addition, the majority of Prisma's receivables are held towards tenants deemed to have a good credit rating, and both new and existing tenants' ability to pay the agreed rent is evaluated on an ongoing basis. However, a few of the lease agreements that Prisma has entered into with its tenants lack rental guarantees, or, alternatively, the agreed collateral has ceased to apply. The Group therefore does not have security for all of its tenants' potential breaches of the lease agreements. As a result, Group companies acting as landlords under the lease agreements have experienced, and may in the future experience, unforeseen losses due to tenants' inability or unwillingness to fulfil their obligations, such as payment of rent. If Prisma's measures to limit credit and counterparty risk prove to be inadequate and Prisma's counterparties regularly fail to fulfil their contractual payment obligations on time, there is a risk that Prisma, in turn, will not be able to fulfil its financial obligations, including paying interest on its loans. Furthermore, if a significant part of Prisma's counterparties fail to fulfil their contractual obligations or payment obligations, there is a risk that Prisma's cash flow will be adversely affected, which in turn could have a negative impact on Prisma's earnings and financial position.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *low*.

External risks

Risks related to macroeconomic factors

The rental income and market value of the Group's properties is in part dependent on the general economic situation and stability in the markets on which the Group operates. The real estate industry in general, and the demand for the type of premises that the Group leases, is affected by macroeconomic factors that are beyond the Group's control. These factors include global and national economic developments, changes in economic growth, inflation and changes in interest rates. Weak economic growth and weakened finances among the Group's tenants may adversely affect the demand for most of the premises and properties that the Group leases, which in turn may lead to higher vacancy rates and thus increased costs and/or loss of income for the Group. High inflation may affect the value of Prisma's property portfolio, and have a negative impact on the attractiveness of, and tenants' demand for, the spaces and properties leased by Prisma. Furthermore, high inflation and rising prices may adversely affect Prisma's tenants' ability to pay and to fulfil their obligations under the lease agreements entered into with the Group. All of these factors affect the required return on property investments and, thus, the value of Prisma's property portfolio.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Risks related to external cyber threats

A cyber threat or cybersecurity threat is a malicious act aimed at damaging data, stealing data or disrupting digital life in general. Cyber threats include, for example, viruses, denial of service attacks, ransomware and other types of cyberattacks. The techniques used to gain unauthorised access to, or to sabotage, systems and data are constantly changing, becoming more sophisticated, and may not be widely known until they are used against Prisma or its third-party suppliers. In recent years, the occurrence of cybersecurity breaches and threats to corporate information systems has increased significantly, causing substantial costs for affected companies. In January 2024 for example, Rusta, one of the Group's tenants, was affected by a significant cyberattack against the hosting provider Tietoverly. Although Prisma is actively working to prevent, monitor and update systems, train users and ensure that suppliers comply with security agreements, Prisma will not be able to predict cyberattacks and incidents, and may not have sufficient preventive measures in place. Depending on the scale and level of any attack or sabotage, there is a risk that Prisma may not be able to resolve and eliminate such threats immediately after they are detected. To the extent that Prisma is subject to a serious failure or disruption of any of its systems or other technical resources or subject to a cybersecurity breach, its ability to operate and manage its business effectively could be adversely affected or lost entirely. Furthermore, there is a risk that cyberattacks lead to the loss of personal data, which in turn may damage Prisma's reputation and potentially render Prisma liable for damages suffered by third parties.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that negative impact is *medium*.

Legal and regulatory risks

Prisma's tax situation may be adversely affected as a result of changes in applicable tax legislation

Prisma's business is mainly affected by taxes in the form of income tax, property tax and VAT. The Group consists of companies that are taxed in Sweden, Denmark and Finland. There is a risk that Prisma's perception and interpretation of applicable tax legislation, tax treaties and other provisions are not correct in all respects. There is also a risk that tax authorities will make judgments and decisions that differ from Prisma's understanding and interpretation of such laws, tax treaties and other provisions, which may adversely affect Prisma's tax expenses and effective tax rate. In addition, changes in legislation, tax treaties or other regulations, which may apply retroactively, could have a material adverse effect on Prisma's earnings and financial position, including tax expenses, deferred tax and effective tax rate.

Prisma may also, from time to time, become involved in tax disputes, tax audits or other proceedings of varying complexity and extent. Such proceedings may be lengthy and extend over several years and may require Prisma to pay significant amounts of additional tax, which would result in substantial costs and could therefore have a material adverse effect on Prisma's results of operations and financial condition.

If any of the above risks materialise, it could lead to higher tax costs and lower margins in the Group's operations, which could have a material adverse effect on Prisma's financial position and earnings.

The Company assesses that the probability of the risk described above materialising is *medium*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Risks related to legislative changes and expropriation

States, municipalities and government agencies are actively involved in the issuance and enforcement of laws and regulations relating to taxation, land use, zoning, zoning plan restrictions, environmental protection, safety and other matters, and there is a risk that such legislative changes relating to, for example, the ownership and use of land and real estate may have an adverse effect on the Group's financial position. If new laws and regulations affecting environmental planning, land use or zoning plans are introduced, there is a risk that the application of such regulations will result in increased costs and reduced income for the Group, which in turn may adversely affect the value of the properties. In addition, there is a risk that the Swedish, Danish or Finnish state, or any other state, if the requirements for expropriation are met, will exercise the right of expropriation of the Group's properties. Expropriation entitles the Group to compensation, but the Group's financial position may still be adversely affected, regardless of whether such compensation is obtained. There is also a risk that changes in regulations or underlying permits for suppliers to the property industry may cause disruption to supply chains and/or a shortage of certain materials.

The Company assesses that the probability of the risk described above materialising is *low* and that the expected negative effect if the risk materialises is *medium*.

During the years 2021–2023, the member states of the European Union negotiated an updated and strengthened version of the European Union Directive (EU) 2010/31 of the European Parliament and of the Council of 19 May 2010 on the Energy Performance of Buildings Directive (“**EPBD**”), with the aim of reducing the energy use and climate impact of buildings. The updated directive was adopted in March 2024. Pursuant to the directive, among other things, so-called “non-residential buildings” must achieve certain energy performance in the years 2030 and 2033, respectively, and all buildings within the European Union must be so-called zero-energy buildings by the year 2050. There is a risk that the directive's energy efficiency requirements on existing buildings will cause high redevelopment costs for real estate companies, including Prisma, which can not necessarily be compensated for by increased rents for the Group's tenants. Buildings that are not considered energy efficient, and thus do not meet the requirements of the EPBD, will potentially be considered less attractive on the property market, which may ultimately affect the opportunities for divestment and leasing of the Group's properties. The energy requirements may also cause Prisma's costs for project development to increase. Depending on how the EPBD is implemented in Sweden, Denmark and Finland, it may have a negative impact on Prisma's operating and development costs, which consequently risks affecting Prisma's growth opportunities, financial profitability and financial position.

The Company assesses that the probability of the risk described above materialising is *medium* and that the expected negative effect if the risk materialises is *medium*.

Time-consuming zoning plans and building permit processes may lead to delayed and/or more expensive projects

The commencement of Prisma's construction projects generally requires a zoning plan being adopted and a building permit being granted. However, the properties acquired by Prisma are not always located in areas with a previously adopted zoning plan or granted building permit that authorises construction in accordance with Prisma's plans. The process of adopting or amending a zoning plan and granting a building permit is carried out by municipalities in accordance with the Swedish Planning and Building Act (Sw. *Plan- och bygglagen (2010:900)*). The zoning plan and building permit processes allow for property owners to comment on the proposed development, and property owners also have the right to appeal municipal decisions. The planning process for a zoning plan varies between municipalities. Prisma estimates that the average process (without appeals) takes between one and two years. Since the procedure allows for property owners to appeal decisions, this time may be extended and the processes may also require time-consuming investigations, such as environmental investigations regarding previous owners' activities on the property or archaeological excavations. Thus, there is a risk that zoning plans and/or building permit processes are delayed and become more time-consuming than Prisma's initial expectations or assumptions, which may result in a delayed commencement of construction projects and increased costs for the Group, and ultimately may result in a negative impact on the Group's profitability and financial position.

The Company assesses that the probability of the risk described above materialising is *medium* and that the expected negative effect if the risk materialises is *low*.

Risks related to litigation and other legal proceedings

Prisma may, from time to time, become involved in disputes, claims and administrative proceedings within the ordinary course of its business relating to, *inter alia*, tenants, sellers or buyers of properties, suppliers, contractors, construction companies and other parties. Disputes, claims, investigations and legal proceedings may result in Prisma being required to pay damages, reduce or refund rents or discontinue certain procedures. Group companies may become involved in disputes in the course of their day-to-day business activities and may be subject to lawsuits relating to, for example, leases, the acquisition or sale of real estate or property-owning companies, and labour disputes. For example, a Group company has been the defendant in a claim for damages concerning a tenant's alleged indirect right to prolongation (Sw. *indirekt besittningsskydd*). The plaintiff tenant alleged that the Group had not provided acceptable replacement premises in connection with the termination of the lease agreement and claimed damages amounting to SEK 55,356,410. The Court of Appeal (Sw. *hovrätten*) ruled in favour of the plaintiff tenant, and the Group company would, had it not been indemnified in this instance, been required to pay damages. There is a risk that Prisma, or its board members, executives, employees or affiliated companies, will be subject to investigations or criminal proceedings in the future. Such disputes, claims, investigations and legal proceedings can be time-consuming, disrupt the day-to-day operations of Prisma, result in claims for compensation and incur significant legal costs. In addition, it can often be difficult to predict the outcome of such proceedings. Consequently, disputes, claims,

investigations and legal proceedings may have a material adverse effect on Prisma's business and earnings.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Prisma processes personal data and must comply with applicable data protection legislation

As part of its business, Prisma processes personal data of various types, including data about representatives of tenants, website visitors, employees and consultants. When Prisma processes personal data, the processing must be conducted in accordance with applicable data protection legislation, such as the European Union Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (the "GDPR"). Compliance with applicable data protection legislation is always a continuous process where processes and documentation need to be implemented, reviewed and updated on an ongoing basis. The data protection legislation also requires, among other things, that the person whose personal data is being processed is informed of what personal data is being processed and that the processing takes place in a manner consistent with the purposes for which the personal data was collected. Prisma has policies for IT and information security and personal data processing that describe the responsibilities and rules for how Prisma's employees should use IT and data and Prisma continuously works to improve processes, routines and controls, and cooperates with its suppliers to ensure compliance with applicable rules. If Prisma, despite these measures, processes such personal data in breach of applicable data protection legislation, including the GDPR, there is a risk that Prisma may be required to pay sanctions for breaches of the GDPR (amounting to a maximum of the greater of MEUR 20 or four per cent. of the global annual turnover). If Prisma fails in its handling of personal data, is subject to breaches of legislation, fails to fulfil provisions of contracts, or if confidential or sensitive data is made public or available to others, it could have a material adverse effect on the Group's reputation and consolidated results.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *medium*.

Risks related to corruption and fraud

Within the context of Prisma's operations, agreements relating to property acquisition and new development projects are regularly entered into, and which can amount to significant amounts. Business decisions, including entering into agreements, are made at different levels in the organisation. The risk of corruption is higher in certain markets and within certain functions, where sales, purchases, gifts and customer activities constitute Prisma's greatest risk areas. Prisma works to prevent and counteract corruption, bribery and fraud through procedures and internal control, and Prisma's view is that there is a well-functioning work method with system support. Within the Group, there is a clear authorisation procedure which reduces the risks resulting from decentralised responsibility for offers, customer agreements and supplier contracts. There are also codes of conduct in place for employees and suppliers,

as well as a whistleblower function. Despite these preventive measures, there is a risk that employees act unethically in relations with tenants and suppliers, for example by accepting or giving bribes, and that employees act fraudulently. The existence of, or allegations of, corruption or fraud may lead to legal proceedings and media attention and scrutiny, which in turn may cause Prisma to suffer financial loss as well as to incur damage to its brand and reputation, even if Prisma has not acted in a culpable manner. Legal penalties related to corruption and fraud can amount to significant amounts. If any of the above risks materialise, it could have an adverse effect on the Group's business, results and financial position.

The Company assesses that the probability of the risk described above materialising is *low*. If the risk materialises, the Company assesses that the negative impact is *low*.

RISK FACTORS SPECIFIC AND MATERIAL TO THE BONDS

Risks related to the nature of the Bonds

Unsecured obligations and structural subordination

The Bonds constitute unsecured debt obligations of the Company. If the Company will be subject to any foreclosure, dissolution, winding-up, liquidation, bankruptcy or other insolvency proceedings, the holders of Bonds normally receive payment after any prioritised creditors, including those which are mandatorily preferred by law, have been paid in full. Further, following prioritised creditors receiving payment in full, the holders of Bonds will have an unsecured claim against the Company for the amounts due under or in respect of the Bonds, which means that the holders of Bonds normally would receive payment pro rata with other unsecured creditors.

The Group has, as part of its financing, incurred debts to credit institutions and other lenders, and security over e.g. property owning Group companies and certain properties in form of share pledges and pledges over mortgage certificates has been provided in relation thereto. Such secured loans normally constitute a preferential claim on the relevant Group company. Subject to the provisions set out in the Terms and Conditions, the Company or any Group company may seek further financing in which case further pledges, as part of such new loans, may be provided. In addition, the Company may retain, provide or renew security over certain of its current or future assets to secure, *inter alia*, bank loans, either via the Company itself or any other Group company, with security interests normally constituting a preferential claim on the borrower. No present or future shareholder or subsidiary of the Company will guarantee the Company's obligations under the Bonds.

Furthermore, the Terms and Conditions allow the Group to incur certain additional debt. If the Company's subsidiaries incur debt, the right to payment under the Bonds will be structurally subordinated to the right of payment relating to debt incurred by subsidiaries of the Company, which could have a negative impact on the bondholder's recovery under the Bonds.

The Company considers that the probability of the risk occurring is *low*. If the risks would materialise, the Company considers the potential negative impact to be *high*.

Dependence on subsidiaries

A significant part of the Group's assets and revenues relate to the Company's subsidiaries. Accordingly, the Company is dependent upon receipt of sufficient income related to the operation of and the ownership in such entities to enable it to make payments under the Bonds. The Company's subsidiaries are legally separate and distinct from the Company and have no obligation to pay amounts due with respect to the Company's obligations and commitments, including the Bonds, or to make funds available for such payments. The ability of the Company's subsidiaries to make such payments to the Company is subject to, among other things, the availability of funds.

Should the value of the business conducted in the subsidiaries or the associated companies decrease, and/or should the Company not receive sufficient income from its subsidiaries and associated companies, an investor's ability to receive payment under the Terms and Conditions may be adversely affected.

The Company considers the probability of the risk occurring to be *low*. If the risk were to occur, the Company considers the potential negative impact to be *high*.

Risks related to the labelling of the green Bonds

The Company intends to use an amount equal to the net proceeds of the issue of the Bonds in accordance with the Company's green bond framework (the "**Green Bond Framework**"). However, there is currently no unequivocal definition of, legal or otherwise, or market consensus as to what constitutes a "green" or an equivalently-labelled project. Accordingly, there is a risk that any projects, asset or uses defined in the Green Bond Framework will not meet current or future investor expectations regarding such "green" or other equivalently-labelled performance objectives, in particular as future developments or legal requirements as to the definitions of "green", whether according to applicable law or regulations or by such investor's own by-laws, other governing rules or investment portfolio mandates, may change. Should the Bonds no longer be defined as "green" Bonds, or such term be developed in the future, the Group's green eligible assets may not reflect these developments.

There is a risk that the net proceeds from the Bonds can only partially, if at all, be used to finance or refinance projects that fulfil the conditions under the Green Bond Framework due to circumstances beyond the Group's control. For example, according to the Green Bond Framework the net proceeds from the Bonds may be applied towards *inter alia* constructing buildings which have a primary energy demand at least 10 per cent. lower than the threshold set for nearly zero-energy buildings according to national building regulations, and there is a risk that the Group does not receive the necessary permits or that the Group cannot build such new, or maintain such current, buildings on financially reasonable terms. Any part of the net proceeds from the Bonds which is not used to finance or re-finance such green eligible assets will regardless bear interest and result in higher finance costs for the Company. Should any projects which have been financed with the net proceeds from the Bonds only partially, if at all, achieve the environmental benefits that motivated the investments in the Bonds, the Company's reputation may deteriorate and may also be in conflict with the purpose of the investment in the Bonds.

A failure by the Company to apply the net proceeds of the Bonds in accordance with the Green Bond Framework does not give the investor a right to require that the Company shall repurchase or redeem any of their Bonds. Should the Company fail to apply the net proceeds in accordance with the Green Bond Framework, there is a risk that investors consequently would be in breach of any investment criteria, mandates or guidelines with which an investor is required to comply with and could result in remedies under the relevant investment criteria, mandates or guidelines, which could result in investors facing, *inter alia*, claims or reputational damages. Further, no Event of Default under the Terms and Conditions will occur should the Bonds no longer be defined as “green” Bonds. The relevant holders of Bonds are in such case not entitled to early repayment or repurchase of Bonds or other compensation, which may result in the value of such Bonds decreasing.

The European Commission has adopted the taxonomy regulation (Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment) which entered into force in full on 1 January 2023 (the “**Taxonomy Regulation**”). The Taxonomy Regulation entails stricter requirements in terms of assessing sustainable investments. The Taxonomy Regulation may affect the assessment of whether the Bonds are “green”, and the Company’s non-compliance with the requirements under the Taxonomy Regulation may cause the Bonds ceasing to be defined as “green”. Due to the rapidly changing market conditions for green securities, there is a risk that current or future investor expectations will not be met which could negatively affect the secondary trading of the Bonds. Furthermore, should such market conditions significantly change, there is a risk that an investor of the Bonds cannot trade its Bonds at attractive terms, or at all, or that any possession of Bonds is connected to reputational damage.

The Company considers that the probability of the Company facing adverse effects relating to the labelling of the Bonds as “green” is *low*. If the risk were to occur, the Company considers the potential negative impact to be *high*.

Interest rate risks and benchmarks

The Bonds’ value depends on several factors, one of the more significant over time being the level of market interest. The Bonds will bear a floating rate interest comprising a base rate such as STIBOR plus a certain margin and the interest rate is therefore adjusted for changes in the level of the general interest rate. Hence, there is a risk that increased general interest rate levels significantly affect the market value of the Bonds.

The determining interest rate benchmarks, such as STIBOR has been subject to regulatory changes such as the Benchmarks Regulation (Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds) (the “**BMR**”). The implementation of the BMR has led to certain used benchmarks, such as LIBOR and EURIBOR being discontinued, meaning that, among other things, existing financing arrangements will have to be renegotiated or terminated. There is a risk that also STIBOR will be discontinued, or that alternative benchmark rates will dominate market practice, leading to uncertainties in relation to the interest rate payable in relation to the Bonds. In accordance with the Terms and Conditions, STIBOR may be replaced following certain events, e.g. if STIBOR ceases to be calculated or administrated (defined in

the terms and conditions of the Bonds as a “**Base Rate Event**”). Increased or altered regulatory requirements and risks associated with any replacement of STIBOR following a Base Rate Event involve inherent risks, as the effects cannot be fully assessed at this point in time. Any upcoming replacement of STIBOR and/or other developments in relation to STIBOR could result in volatility in STIBOR and the calculation of the interest rate of the Bonds, which in turn could result in an adverse negative effect on an investment in the Bonds.

The Company considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Company considers the potential negative impact to be *medium*.

Risks related to the bondholders’ rights and representation

Risks relating to actions against the Company and bondholders’ representation

In accordance with the Terms and Conditions, the agent will represent all holders of Bonds in all matters relating to the Bonds and the holders of Bonds are prevented from taking actions on their own against the Company, for example following an event of default. Consequently, individual holders of Bonds do not have the right to take legal actions individually to declare any default by claiming any payment from the Company and may therefore lack effective remedies unless and until a requisite majority of the holders of Bonds agree to take such action. However, there is a risk that an individual holder of Bonds, in certain situations, could bring its own action against the Company (in breach of the Terms and Conditions for the Bonds), which could negatively impact other holders of Bonds by resulting in an acceleration of the Bonds or other action against the Company, prejudicing other bondholders’ attempt to reach a consensual solution.

Furthermore, the agent’s right to represent holders of Bonds in formal court proceedings in Sweden (such as bankruptcies, company reorganisations or upon in-court enforcement of security) has recently been questioned and there has been a case where a Swedish court has held that such right in certain circumstances does not exist, meaning that the bondholders in question were unable to take action in court against the issuer through the agent without the requisite powers of attorney. Although the relevant case law on this subject does not, as of now, create a precedent, if this judgment should continue to be upheld by the justice system and/or if the regulators should not intervene and include the agent’s right to represent bondholders in relevant legislation, it may become more difficult for holders of Bonds to protect their rights under the terms of the Bonds in formal court proceedings.

The Company considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Company considers the potential negative impact to be *high*.

Risks related to the admission of the Bonds to trading

Liquidity risks and secondary market

Pursuant to the Terms and Conditions, the Company has undertaken to have the Bonds admitted to trading on the sustainable bond list of Nasdaq Stockholm (or any other regulated market) within sixty calendar days after the first issue date. There is a risk that the Bonds will not be admitted to trading within the stipulated timeframe, or at all. If the Company fails to admit the Bonds to trading within sixty

calendar days, investors holding Bonds on an investment savings account (Sw. *ISK* or *IS-konto*) will no longer be able to hold the Bonds on such account, thus affecting such investor's tax situation.

Even if the Bonds are admitted to trading, active trading in the securities may not always occur and thus, there can be no assurance that a liquid market for trading in the Bonds will exist or be maintained. If a liquid market for trading in the Bonds does not exist or cannot be maintained, it may lead to holders of Bonds being unable to sell their Bonds when desired or at a price level which allows for a profit comparable to similar investments with an active and functioning secondary market, or can only sell their Bonds at a loss. Consequently, lack of liquidity in the market may have a negative impact on the market value of the Bonds.

It should also be noted that during a given time period it may be difficult or impossible to sell the Bonds (at all or at reasonable terms) due to, for example, severe price fluctuations, close down of the relevant market or trade restrictions imposed on the market.

The Company considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Company considers the potential negative impact to be *medium*.

Any such amendments after the First Issue Date will not be applicable to the Bonds and the Bondholders. A failure by the

Issuer to apply the Net Proceeds of the Bonds in accordance with the Green Bond Framework does not give the Bondholders a right to require that the Issuer shall repurchase or redeem any of their Bonds. Further, no Event of Default under the Terms and Conditions will occur should the Bonds no longer be defined as “green” Bonds. The relevant Bondholders are in such case not entitled to early repayment or repurchase of Bonds or other compensation.

To enable Bondholders and other stakeholders to follow the development of the projects funded by Green Bonds, an allocation and impact report will be published annually for as long as there are any Green Bonds outstanding. The reports will be made available on Prisma’s website at www.prismaproperties.se together with the Green Bond Framework.

The Green Bond Framework dated November 2025 is aligned with the four core components of the Green Bond Principles from 2025 (the “**GBP**”) being: use of proceeds; asset evaluation and selection; management of proceeds; and reporting. The GBP has been established by the International Capital Market Association, and are voluntary guidelines for issuing green bonds. The Green Bond Framework dated November 2025 has been evaluated in November 2025 by the independent research firm Moody’s, which concluded that the Green Bond Framework dated November 2025 aligns with the four recommended components of the GBP and demonstrates a significant contribution to sustainability.

In accordance with the Green Bond Framework dated November 2025, an amount equivalent to the Net Proceeds from the Bonds shall be used to finance or re-finance, in whole or in part, a portfolio of projects and assets (“**Green Assets**”). Green Assets aim to support the transition towards a low-carbon future, as well as comply with Eligibility Criteria (as detailed in the Green Bond Framework). Green Assets may include fixed assets, capital expenditures (“**CapEx**”) and operational expenditures (“**OpEx**”). Fixed assets will qualify at the current balance sheet value, which will be updated annually to reflect regular depreciation. Capex available in the cashflow statement is subject to a three-year look-back period. OpEx available in the income statement is also subject to a three-year look-back period. The Net Proceeds of the Bonds will not be used to finance fossil fuel energy generation, nuclear energy generation, weapons, potentially environmental harmful resource extraction (such as rare-earth elements), gambling or tobacco.

The selection of Green Eligible Assets is managed by a dedicated group, the Green Bond Committee (“**GBC**”). Members of the GBC consist of the CSO, COO, CFO and Treasury Manager of the Issuer, and other internal representatives with specific expertise may be invited when deemed necessary. The GBC will convene at least annually. The role of the GBC is

to review, select and validate Green Assets. On behalf of the GBC, the finance team of the Issuer will annually review the list of approved Green Assets. Further, the GBC will oversee, approve and publish the allocation and impact report and govern the content of the Green Bond Framework.

The Issuer has committed to, on a best-effort basis, allocate the net proceeds from any issue of Green Bonds to Green Eligible Assets within 12 months from the relevant issue date of the Green Bonds. Pending full allocation of an amount equal to the net proceeds of outstanding Green Bonds, the unallocated proceeds will be held in the liquidity reserves and managed as such and will exclude any investments in activities listed in under Exclusion Criteria in the Green Bond Framework.

Objects of the Issuer	The Company's business is to engage, directly or indirectly, in investment activities in real estate, to own and manage real estate and movable property, and to conduct activities compatible therewith.

History and development

The Company's legal and commercial name is Prisma Properties AB (publ) and it is a Swedish property company domiciled in Stockholm municipality, with Swedish reg. no 559378-1700. The Company was formed on 25 April 2022 and registered with the Swedish Companies Registration Office on 28 April 2022. According to the Company's articles of association, the objects of the Company are to engage, directly or indirectly, in investment activities in real estate, to own and manage real estate and movable property, and to conduct activities compatible therewith. The business conducted by the Group started in 2016, when the real estate investment firm Alma Property Partners started developing its property portfolio. Prisma Properties was officially founded in 2022, when it acquired property portfolios previously owned by Alma Property Partners I AB and Alma Property Partners II

AB through an acquisition in kind. The Company's shares are listed on Nasdaq Stockholm Main Market since 18 June 2024.

Business and operations

General

The Group's business model is to develop and own modern properties within the discount retail, grocery and quick service restaurant (QSR) sectors. The Group operates in the Nordics and has a property portfolio valued at SEK 10.1 billion as at 31 March 2026, which mainly consists of newly developed properties with long-term leases. Prisma's property portfolio is located in strategic locations with high consumer accessibility in fast-growing regions. The properties are characterised by being located in areas of high traffic flows, adjacent to motorways, major roads or retail parks.

Business and operations

Property development

Prisma actively works with leading discounters to identify new development projects. Prisma continuously receives inbound requests for new establishments from current tenants and maintains a close dialogue with the tenants concerning potential projects identified by Prisma. Prisma is focused on sustainability and resource efficiency in its new construction, where measures such as environmental certification of properties and high-quality energy-efficient buildings enables opportunities for profitable management.

Property development is focused on matching the needs and growth strategy of a tenant. The key to Prisma's historically successful property development is the fact that rental agreements are signed before construction commences, with long-term double or triple net agreements, where the typical term is ten years for discount stores and 20 years for quick service restaurants.

To ensure optimal cost control, fixed-price contractor agreements are negotiated with most contractors, except for some smaller agreements where a fixed price is not possible to negotiate due to project conditions. All project development is carried out for own long-term management, where the modern properties with a high degree of double or triple net leases results in a low management intensity.

Property management

Prisma has established an internal management organisation, founded on its existing close relationships with tenants where value-creating measures in existing portfolios are jointly identified. At the same time, Prisma proactively renegotiates its leases in order to maximise the rental income and average rental duration. Completed projects are kept for long term property management. Modern properties with double or triple net lease agreements are less management-intensive as the tenant is responsible for most of the property's expenses.

Neither the Group, nor any of its associated entities have entered into any material agreements not in the ordinary course of its business and that may affect the Company's ability to fulfil its obligations under the Bonds.

Notwithstanding the aforesaid, the Agent may postpone a notification of an Event of Default (other than in relation to Clause 15.1 (*Non-payment*)) up until the time stipulated in Clause 15.10.4 for as long as, in the reasonable opinion of the Agent such postponement is in the interests of the Bondholders as a group. The Agent shall always be entitled to take the time necessary to determine whether an event constitutes an Event of Default.
- 15.10.4 The Agent shall, within twenty (20) Business Days of the date on which the Agent received notice of or otherwise gained actual knowledge of that an Event of Default has occurred and is continuing, decide if the Bonds shall be so terminated. If the Agent has decided not to terminate the Bonds, the Agent shall, at the earliest possible date, notify the Bondholders that there exists a right of termination and obtain instructions from the Bondholders according to the provisions in Clause 16 (*Decisions by Bondholders*). If the Bondholders vote in favour of termination and instruct the Agent to terminate the Bonds, the Agent shall promptly declare the Bonds terminated. However, if the cause for termination according to the Agent's appraisal has ceased before the termination, the Agent shall not terminate the Bonds. The Agent shall in such case, at the earliest possible date, notify the Bondholders that the cause for termination has ceased. The Agent shall always be entitled to take the time necessary to consider whether an occurred event constitutes an Event of Default.
- 15.10.5 If the Bondholders, without any prior initiative to decision from the Agent or the Issuer, have made a decision regarding termination in accordance with Clause 16 (*Decisions by Bondholders*), the Agent shall promptly declare the Bonds terminated. The Agent is however not liable to take action if the Agent considers cause for termination not to be at hand, unless the instructing Bondholders agree in writing to indemnify and hold the Agent harmless from any loss or liability and, if requested by the Agent in its discretion, grant sufficient security for such indemnity.

- 15.10.6 If the Bonds are declared due and payable in accordance with the provisions in this Clause 15, the Agent shall promptly declare the Bonds due and payable and take such actions as may, in the opinion of the Agent, be necessary or desirable to enforce the rights of the Bondholders under the Finance Documents, unless the relevant Event of Default is no longer continuing.
- 15.10.7 If the right to terminate the Bonds is based upon a decision of a court of law, an arbitral tribunal or a government authority, it is not necessary that the decision has become enforceable under any applicable regulation or that the period of appeal has expired in order for cause of termination to be deemed to exist.
- 15.10.8 For the avoidance of doubt, the Bonds cannot be terminated and become due for payment prematurely according to this Clause 15 without relevant decision by the Agent or following instructions from the Bondholders' pursuant to Clause 16 (*Decisions by Bondholders*).
- 15.10.9 If the Bonds are declared due and payable in accordance with this Clause 15, the Issuer shall redeem all Bonds with an amount per Bond equal to the applicable Call Option Amount for the relevant period (plus accrued but unpaid Interest), but shall up until the First Call Date be the price set out in paragraph (a) of the definition of Call Option Amount, together with accrued but unpaid Interest.

15.11 **Distribution of proceeds**

- 15.11.1 If the Bonds have been declared due and payable in accordance with this Clause 15, all payments by the Issuer relating to the Bonds shall be made and/or distributed in the following order of priority:
- (a) *firstly*, in or towards payment *pro rata* of:
 - (i) all unpaid fees, costs, expenses and indemnities payable by the Issuer to the Agent under the Finance Documents (in its capacity as bond agent) (other than any indemnity given for liability against the Bondholders);
 - (ii) other costs, expenses and indemnities relating to the acceleration of the Bonds or the protection of the Bondholders' rights as may have been incurred by the Agent;
 - (iii) any non-reimbursed costs incurred by the Agent for external experts; and
 - (iv) any non-reimbursed costs and expenses incurred by the Agent in relation to a Bondholders' Meeting or a Written Procedure;
 - (b) *secondly*, in or towards payment *pro rata* of accrued but unpaid Interest under the Bonds (interest due on an earlier Interest Payment Date to be paid before any interest due on a later Interest Payment Date);
 - (c) *thirdly*, in or towards payment *pro rata* of any unpaid principal under the Bonds; and
 - (d) *fourthly*, in or towards payment *pro rata* of any other costs or outstanding amounts unpaid under these Terms and Conditions, including any default interest.

Any excess funds after the application of proceeds in accordance with paragraphs (a) to (d) above shall be paid to the Issuer. The application of proceeds in accordance with paragraphs

(a) to (d) above shall, however, not restrict a Bondholders' Meeting or a Written Procedure from resolving that accrued Interest (whether overdue or not) shall be reduced without a corresponding reduction of principal.

- 15.11.2 If a Bondholder or another party has paid any fees, costs, expenses or indemnities referred to in Clause 15.11.1, such Bondholder or other party shall be entitled to reimbursement by way of a corresponding distribution in accordance with Clause 15.11.1.
- 15.11.3 Funds that the Agent or a Bondholder receives (directly or indirectly) in connection with the termination of the Bonds constitute escrow funds (Sw. *redovisningsmedel*) according to the Escrow Funds Act (Sw. *lag (1944:181) om redovisningsmedel*) and must be held on a separate bank account on behalf of the Bondholders and the other interested parties. The Agent shall arrange for payments of such funds in accordance with this Clause 15.11 as soon as reasonably practicable.
- 15.11.4 If the Issuer or the Agent shall make any payment under this Clause 15.11, the Issuer or the Agent, as applicable, shall notify the Bondholders of any such payment at least ten (10) Business Days before the payment is made. Such notice shall specify the Record Date, the payment date and the amount to be paid. Notwithstanding the foregoing, for any Interest due but unpaid the Record Date specified in Clause 9.1 shall apply.

16. DECISIONS BY BONDHOLDERS

16.1 Request for a decision

- 16.1.1 A request by the Agent for a decision by the Bondholders on a matter relating to the Finance Documents shall (at the option of the Agent) be dealt with at a Bondholders' Meeting or by way of a Written Procedure.
- 16.1.2 Any request from the Issuer or a Bondholder (or Bondholders) representing at least ten (10.00) per cent. of the Adjusted Nominal Amount (such request shall, if made by several Bondholders, be made by them jointly) for a decision by the Bondholders on a matter relating to the Finance Documents shall be directed to the Agent and dealt with at a Bondholders' Meeting or by way of a Written Procedure, as determined by the Agent. The Person requesting the decision may suggest the form for decision making, but if it is in the Agent's opinion more appropriate that a matter is dealt with at a Bondholders' Meeting than by way of a Written Procedure, it shall be dealt with at a Bondholders' Meeting.
- 16.1.3 The Agent may refrain from convening a Bondholders' Meeting or instigating a Written Procedure if the suggested decision must be approved by any Person in addition to the Bondholders and such Person has informed the Agent that an approval will not be given or the suggested decision is not in accordance with applicable regulations.
- 16.1.4 The Agent shall not be responsible for the content of a notice for a Bondholders' Meeting or a communication regarding a Written Procedure unless and to the extent it contains information provided by the Agent.
- 16.1.5 Should the Agent not convene a Bondholders' Meeting or instigate a Written Procedure in accordance with these Terms and Conditions, without Clause 16.1.3 being applicable, the Issuer or the Bondholder(s) requesting a decision by the Bondholders may convene such

Bondholders' Meeting or instigate such Written Procedure, as the case may be, instead. The Issuer and/or the Issuing Agent shall upon request by the convening Bondholder(s) provide such Bondholder(s) with the information available in the Debt Register in order to convene and hold the Bondholders' Meeting or instigate and carry out the Written Procedure, as the case may be. The Issuer or Bondholder(s), as applicable, shall supply to the Agent a copy of the dispatched notice or communication.

- 16.1.6 Should the Issuer want to replace the Agent, it may convene a Bondholders' Meeting in accordance with Clause 16.2.1 or instigate a Written Procedure by sending communication in accordance with Clause 16.3.1. After a request from the Bondholders pursuant to Clause 19.4.3, the Issuer shall no later than five (5) Business Days after receipt of such request (or such later date as may be necessary for technical or administrative reasons) convene a Bondholders' Meeting in accordance with Clause 16.2.1 or instigate a Written Procedure by sending communication in accordance with Clause 16.3.1. The Issuer shall inform the Agent before a notice for a Bondholders' Meeting or communication relating to a Written Procedure where the Agent is proposed to be replaced is sent and supply to the Agent a copy of the dispatched notice or communication.

16.2 **Bondholders' Meeting**

- 16.2.1 The Agent shall convene a Bondholders' Meeting by sending a notice thereof to each Bondholder no later than five (5) Business Days after receipt of a complete notice from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons). If the Bondholders' Meeting has been requested by the Bondholder(s), the Agent shall send a copy of the notice to the Issuer.

- 16.2.2 The notice pursuant to Clause 16.2.1 shall include:

- (a) the time for the meeting;
- (b) the place for the meeting;
- (c) a specification of the Record Date on which a person must be registered as a Bondholder in order to be entitled to exercise voting rights;
- (d) an agenda for the meeting (including the reasons for, and contents of, each request for a decision by the Bondholders and if the proposal concerns an amendment to any Finance Document, the details of such proposed amendment);
- (e) a form of power of attorney;
- (f) any applicable conditions precedent and conditions subsequent;
- (g) should prior notification by the Bondholders be required in order to attend the Bondholders' Meeting, such requirement shall be included in the notice; and
- (h) information on where additional information (if any) will be published.

Only matters that have been included in the notice may be resolved upon at the Bondholders' Meeting.

- 16.2.3 The Bondholders' Meeting shall be held no earlier than ten (10) Business Days and no later than thirty (30) Business Days from the effective date of the notice.

- 16.2.4 If no Person has been appointed by the Agent to open the Bondholders' Meeting, the meeting shall be opened by a Person appointed by the requesting Person.
- 16.2.5 At a Bondholders' Meeting, the Issuer, the Bondholders (or the Bondholders' representatives/proxies) and the Agent may attend along with each of their representatives, counsels and assistants. Further, the directors of the board, the managing director and other officials of the Issuer and the Issuer's auditors and advisors may attend the Bondholders' Meeting. The Bondholders' Meeting may decide that further individuals may attend. If a representative/proxy shall attend the Bondholders' Meeting instead of the Bondholder, the representative/proxy shall present a duly executed proxy or other document establishing its authority to represent the Bondholder.
- 16.2.6 Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in person.

16.3 **Written Procedure**

- 16.3.1 The Agent shall instigate a Written Procedure by way of sending a communication to the Bondholders as soon as practicable and in any event no later than five (5) Business Days after receipt of a complete communication from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such Person who is registered as a Bondholder on the Business Day prior to the date on which the communication is sent. If the Written Procedure has been requested by the Bondholder(s), the Agent shall send a copy of the communication to the Issuer.
- 16.3.2 A communication pursuant to Clause 16.3.1 shall include:
- (a) each request for a decision by the Bondholders;
 - (b) a description of the reasons for, and contents of, each proposal (including, if the proposal concerns an amendment to any Finance Document, the details of such proposed amendment);
 - (c) any applicable conditions precedent and conditions subsequent;
 - (d) information on where additional information (if any) will be published;
 - (e) a specification of the Business Day on which a Person must be registered as a Bondholder in order to be entitled to exercise voting rights;
 - (f) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney;
 - (g) the stipulated time period within which the Bondholder must reply to the request (such time period to last at least ten (10) Business Days but no more than thirty (30) Business Days from the effective date of communication pursuant to Clause 16.3.1); and
 - (h) if the voting shall be made electronically, instructions for such voting.

16.3.3 When the requisite majority consents of the aggregate Adjusted Nominal Amount pursuant to Clauses 16.4.2 and 16.4.3 have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clauses 16.4.2 and 16.4.3, as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

16.3.4 The Agent may, during the Written Procedure, provide information to the Issuer by way of updates whether or not quorum requirements have been met and about the eligible votes received by the Agent, including the portion consenting or not consenting to the proposal(s) or refraining from voting (as applicable).

16.4 **Majority, quorum and other provisions**

16.4.1 Only a Person who is, or who has been provided with a power of attorney or other proof of authorisation pursuant to Clause 8 (*Right to act on behalf of a Bondholder*) from a Person who is, registered as a Bondholder:

- (a) on the Record Date prior to the date of the Bondholders' Meeting, in respect of a Bondholders' Meeting, or
- (b) on the Business Day specified in the communication pursuant to Clause 16.3.2, in respect of a Written Procedure,

may exercise voting rights as a Bondholder at such Bondholders' Meeting or in such Written Procedure, provided that the relevant Bonds are included in the definition of Adjusted Nominal Amount. Each whole Bond entitles to one vote and any fraction of a Bond voted for by a person shall be disregarded. Such Business Day specified pursuant to paragraph (a) or (b) above must fall no earlier than one (1) Business Day after the effective date of the notice or communication, as the case may be.

16.4.2 Any matter not covered by Clause 16.4.3 shall require the consent of Bondholders representing more than fifty (50.00) per cent. of the Adjusted Nominal Amount for which Bondholders are voting at a Bondholders' Meeting or for which Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 16.3.2. This includes, but is not limited to, any amendment to or waiver of any Finance Document that does not require a higher majority (other than an amendment or waiver permitted pursuant to paragraphs (a) to (f) of Clause 17.1) or a termination of the Bonds.

16.4.3 The following matters shall require consent of Bondholders representing at least sixty-six and two thirds ($\frac{662}{3}$) per cent. of the Adjusted Nominal Amount for which Bondholders are voting at a Bondholders' Meeting or for which Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 16.3.2:

- (a) waive a breach of or amend an undertaking set out in Clause 14 (*Special undertakings*);
- (b) amend the terms of Clause 2 (*Status of the Bonds*);
- (c) amend the terms of Clause 15.11 (*Distribution of proceeds*);
- (d) a mandatory exchange of the Bonds for other securities;
- (e) reduce the principal amount, premiums in connection with redemption or repurchase of any Bonds, Interest Rate or Interest which shall be paid by the Issuer (other than as a result of an application of Clause 18 (*Replacement of Base Rate*));

 - (g) a change of issuer; or
 - (h) amend the provisions in this Clause 16.4.3 or in Clause 16.4.2.
- 16.4.4 The chairman at a Bondholders' Meeting shall be appointed by the Bondholders in accordance with Clause 16.4.2.
- 16.4.5 Quorum at a Bondholders' Meeting or in respect of a Written Procedure only exists if a Bondholder (or Bondholders) representing at least fifty (50.00) per cent. of the Adjusted Nominal Amount in case of a matter covered by Clause 16.4.3, and otherwise twenty (20) per cent. of the Adjusted Nominal Amount:
- (a) if at a Bondholders' Meeting, attend the meeting in person or by other means prescribed by the Agent pursuant to clause 16.2.6 (or appear through duly authorised representatives); or
 - (b) if in respect of a Written Procedure, reply to the request.
- 16.4.6 If a quorum exists for some but not all of the matters to be dealt with at a Bondholders' Meeting or by a Written Procedure, decisions may be taken in the matters for which a quorum exists.
- 16.4.7 If a quorum does not exist at a Bondholders' Meeting or in respect of a Written Procedure, the Agent or the Issuer shall convene a second Bondholders' Meeting (in accordance with Clause 16.2.1) or initiate a second Written Procedure (in accordance with Clause 16.3.1), as the case may be, provided that the relevant proposal has not been withdrawn by the Person(s) who initiated the procedure for Bondholders' consent. For the purposes of a second Bondholders' Meeting or second Written Procedure pursuant to this Clause 16.4.6, the date of request of the second Bondholders' Meeting pursuant to Clause 16.2.1 or second Written Procedure pursuant to Clause 16.3.1, as the case may be, shall be deemed to be the relevant date when the quorum did not exist. The quorum requirement in Clause 16.4.5 shall not apply to such second Bondholders' Meeting or Written Procedure.
- 16.4.8 Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as appropriate.
- 16.4.9 A Bondholder holding more than one Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- 16.4.10 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any owner of Bonds (irrespective of whether such person is a Bondholder) for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders that vote in respect of the proposal at the relevant Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.
- 16.4.11 A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have

not adopted or voted for a decision shall not be liable for any damages that this may cause the Issuer or other Bondholders.

- 16.4.12 All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- 16.4.13 If a decision shall be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies or (to the knowledge of the Issuer) their Affiliates as per the relevant Record Date for voting, irrespective of whether such Person is directly registered as owner of such Bonds. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a Bond is owned by a Group Company or an Affiliate of a Group Company.
- 16.4.14 Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to each Bondholder and published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

17. AMENDMENTS AND WAIVERS

- 17.1 The Issuer (or, if applicable, any other relevant Group Company) and the Agent (acting on behalf of the Bondholders) may agree in writing to amend the Finance Documents or waive any provision in the Finance Documents (or any other document relating to the Bonds), provided that the Agent is satisfied that such amendment or waiver:
- (a) is not detrimental to the interest of the Bondholders (as a group);
 - (b) is made solely for the purpose of rectifying obvious errors and mistakes;
 - (c) is required by applicable regulation, a court ruling or a decision by a relevant authority;
 - (d) is necessary for the purpose of having the Bonds admitted to trading on the sustainable bond list of Nasdaq Stockholm (or any other Regulated Market, or MTF as applicable), provided that such amendment or waiver does not materially adversely affect the rights of the Bondholders;
 - (e) is made pursuant to Clause 18 (*Replacement of Base Rate*); or
 - (f) has been duly approved by the Bondholders in accordance with Clause 16 (*Decisions by Bondholders*) and it has received any conditions precedent specified for the effectiveness of the approval by the Bondholders.

- 17.2 The consent of the Bondholders is not necessary to approve the particular form of any amendment or waiver to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
- 17.3 The Agent shall promptly notify the Bondholders of any amendments or waivers made in accordance with Clause 17.1, setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to these Terms and Conditions are available on the websites of the Issuer and the Agent. The Issuer shall ensure that any amendments to these Terms and Conditions are duly registered with the CSD and each other relevant organisation or authority.
- 17.4 An amendment or waiver to the Finance Documents shall take effect on the date determined by the Bondholders' Meeting, in the Written Procedure or by the Agent, as the case may be.

18. REPLACEMENT OF BASE RATE

18.1 General

- 18.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Bondholders in accordance with the provisions of this Clause 18 shall at all times be made by such Independent Adviser, the Issuer or the Bondholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.
- 18.1.2 If a Base Rate Event has occurred, this Clause 18 shall take precedent over the fallbacks set out in paragraph (b) to (d) of the definition of STIBOR.

18.2 Definitions

In this Clause 18:

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“**Base Rate Administrator**” means Swedish Financial Benchmark Facility AB (SFBF) in relation to STIBOR or any person replacing it as administrator of the Base Rate.

“**Base Rate Amendments**” has the meaning set forth in Clause 18.3.4.

“**Base Rate Event**” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;

- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Bondholder using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (Sw. *krishanteringsregelverket*) containing the information referred to in (b) above; or
- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in (b) to (e) above will occur within six (6) months.

“**Base Rate Event Announcement**” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“**Independent Adviser**” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“**Relevant Nominating Body**” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“**Successor Base Rate**” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Bonds, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply mutatis mutandis to such new Successor Base Rate.

18.3 **Determination of Base Rate, Adjustment Spread and Base Rate Amendments**

- 18.3.1 Without prejudice to Clause 18.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer's expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 18.3.2.
- 18.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer's expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate.
- 18.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 18.3.2, the Bondholders shall, if so decided at a Bondholders' Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer's expense) for the purposes set forth in Clause 18.3.2. If an Event of Default has occurred and is continuing, or if the Issuer fails to carry out any other actions set forth in Clause 18.3 to 18.6, the Agent (acting on the instructions of the Bondholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer's cooperation.
- 18.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice ("**Base Rate Amendments**").
- 18.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

18.4 **Interim measures**

18.4.1 If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Quotation Day in relation to the next succeeding Interest Period or if such Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Quotation Day, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

18.4.2 For the avoidance of doubt, Clause 18.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 18. This will however not limit the application of Clause 18.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 18 have been taken, but without success.

18.5 **Notices etc.**

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Issuing Agent and the Bondholders in accordance with Clause 24 (*Notices and press releases*) and the CSD. The notice shall also include information about the effective date of the amendments. If the Bonds are admitted to trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

18.6 **Variation upon replacement of Base Rate**

18.6.1 No later than giving the Agent notice pursuant to Clause 18.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 18.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 18. The Successor Base Rate, the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Issuing Agent and the Bondholders.

18.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 18.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Bondholders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 18.

18.6.3 The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 18. Neither the Agent nor the Issuing Agent

shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

18.7 **Limitation of liability for the Independent Adviser**

Any Independent Adviser appointed pursuant to Clause 18.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. 19. THE AGENT

19.1 **Appointment of the Agent**

- 19.1.1 By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer and in relation to any mandatory exchange of the Bonds for other securities (including, for the avoidance of doubt, a right for the Agent to subscribe for any such new securities on behalf of the relevant Bondholder).
- 19.1.2 By acquiring Bonds, each subsequent Bondholder confirms the appointment and authorisation for the Agent to act on its behalf, as set forth in Clause 19.1.1.
- 19.1.3 Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Bondholder which does not comply with such request.
- 19.1.4 The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- 19.1.5 The Agent is entitled to fees for all its work in such capacity and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agent's obligations as agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- 19.1.6 The Agent may act as agent, trustee and/or security agent for several issues of securities or other loans issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

19.2 Duties of the Agent

- 19.2.1 The Agent shall represent the Bondholders in accordance with the Finance Documents.
- 19.2.2 When acting pursuant to the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent is never acting as an advisor to the Bondholders or the Issuer. Any advice or opinion from the Agent does not bind the Bondholders or the Issuer.
- 19.2.3 When acting pursuant to the Finance Documents, the Agent shall carry out its duties with reasonable care and skill in a proficient and professional manner.
- 19.2.4 The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 19.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. The Agent shall however remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 19.2.6 The Issuer shall on demand by the Agent pay all costs for external experts engaged by it:
- (a) after the occurrence of an Event of Default;
 - (b) for the purpose of investigating or considering:
 - (i) an event or circumstance which the Agent reasonably believes is or may lead to an Event of Default; or
 - (ii) a matter relating to the Issuer or the Finance Documents which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents;
 - (c) in connection with any Bondholders' Meeting or Written Procedure; or
 - (d) in connection with any amendment (whether contemplated by the Finance Documents or not) or waiver under the Finance Documents (including for the purpose of deciding whether the conditions set out in Clause 17 (*Amendments and waivers*) are fulfilled).
- 19.2.7 Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 15.11 (*Distribution of proceeds*).
- 19.2.8 The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.
- 19.2.9 Other than as specifically set out in the Finance Documents, the Agent shall not be obliged to monitor:
- (a) whether any Event of Default has occurred;

- (b) the financial condition of the Issuer and the Group;
- (c) the performance, default or any breach by the Issuer or any other party of its obligations under the Finance Documents; or
- (d) whether any other event specified in any Finance Document has occurred or is expected to occur.

Should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.

- 19.2.10 The Agent shall (a) review each Compliance Certificate delivered to it to determine that it meets the requirements set out in Clause 12.3.2 and as otherwise agreed between the Issuer and the Agent and (b) verify that the Issuer according to its reporting in the Compliance Certificate meets the relevant financial covenant(s) or tests. The Issuer shall promptly upon request provide the Agent with such information as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 19.2.10.
- 19.2.11 The Agent shall ensure that it receives evidence satisfactory to it that Finance Documents which are required to be delivered to the Agent are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 19.2.11. Other than as set out above, the Agent shall neither be liable to the Issuer or the Bondholders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.
- 19.2.12 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 19.2.13 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.
- 19.2.14 The Agent shall give a notice to the Bondholders before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or if it refrains from acting for any reason described in Clause 19.2.13.
- 19.2.15 Upon the reasonable request by a Bondholder, the Agent shall promptly distribute to the Bondholders any information from such Bondholder which relates to the Bonds (at the discretion of the Agent). The Agent may require that the requesting Bondholder reimburses any costs or expenses incurred, or to be incurred, by the Agent in doing so (including a reasonable fee for the work of the Agent) before any such information is distributed. The Agent shall upon request by a Bondholder disclose the identity of any other Bondholder who has consented to the Agent in doing so.

19.2.16 Subject to the restrictions of a non-disclosure agreement entered into by the Agent in connection with these Terms and Conditions, the Agent shall be entitled to disclose to the Bondholders any document, information, event or circumstance directly or indirectly relating to the Issuer or the Bonds. Notwithstanding the foregoing, the Agent may if it considers it to be beneficial to the interests of the Bondholders delay disclosure or refrain from disclosing certain information (save for that any delay in disclosing an Event of Default, which event shall be governed by Clause 15.10.3).

19.3 **Liability for the Agent**

19.3.1 The Agent may assume that the documentation and evidence delivered to it is accurate, legally valid, enforceable, correct, true and complete unless it has actual knowledge to the contrary, and the Agent does not have to verify or assess the contents of any such documentation. The conditions precedent are not reviewed by the Agent from a legal or commercial perspective of the Bondholders.

19.3.2 The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.

19.3.3 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.

19.3.4 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.

19.3.5 The Agent shall have no liability to the Issuer or the Bondholders for damage caused by the Agent acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.

19.3.6 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.

19.4 **Replacement of the Agent**

19.4.1 Subject to Clause 19.4.6, the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.

19.4.2 Subject to Clause 19.4.6, if the Agent is insolvent or becomes subject to bankruptcy proceedings, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10)

Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.

- 19.4.3 A Bondholder (or Bondholders) representing at least ten (10.00) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.
- 19.4.4 If the Bondholders have not appointed a successor Agent within ninety (90) days after:
- (a) the earlier of the notice of resignation was given or the resignation otherwise took place; or
 - (b) the Agent was dismissed through a decision by the Bondholders,
- the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- 19.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 19.4.6 The Agent's resignation or dismissal shall only take effect upon the earlier of:
- (a) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent; and
 - (b) the period pursuant to Clause 19.4.4 having lapsed.
- 19.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 19.4.8 In the event that there is a change of the Agent in accordance with this Clause 19.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

20. THE ISSUING AGENT

- 20.1 The Issuer shall when necessary appoint an Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations

applicable to and/or issued by the CSD and relating to the Bonds. The Issuing Agent shall be a commercial bank or securities institution approved by the CSD.

- 20.2 The Issuer shall ensure that the Issuing Agent enters into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Issuing Agent, as may be necessary in order for the Issuing Agent to carry out its duties relating to the Bonds.
- 20.3 The Issuing Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Issuing Agent shall never be responsible for indirect or consequential loss.
- 20.4 The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the old Issuing Agent retires or is dismissed. If the Issuing Agent is insolvent, the Issuer shall immediately appoint a new Issuing Agent, which shall replace the old Issuing Agent as issuing agent in accordance with these Terms and Conditions.

21. THE CSD

- 21.1 The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the CSD Regulations and the other regulations applicable to the Bonds.
- 21.2 The CSD may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD retires or is dismissed and provided also that the replacement does not have a negative effect on any Bondholder or the admission to trading of the Bonds on the sustainable bond list of Nasdaq Stockholm (or any other Regulated Market, as applicable). The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Central Securities Depository Regulation (Regulation (EU) No 909/2014) and be authorised as a central securities depository in accordance with the Financial Instruments Accounts Act.

22. NO DIRECT ACTIONS BY BONDHOLDERS

- 22.1 A Bondholder may not take any action or legal steps whatsoever against any Group Company to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or their equivalents in any other jurisdiction) of any Group Company in relation to any of the obligations or liabilities of such Group Company under the Finance Documents. Such steps may only be taken by the Agent.
- 22.2 Clause 22.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 19.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by

the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 19.2.13, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 19.2.14 before a Bondholder may take any action referred to in Clause 22.1.

- 22.3 The provisions of Clause 22.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 11.5 (*Mandatory repurchase due to a Change of Control, De-listing or Listing Failure (put option)*) or other payments which are due by the Issuer to some but not all Bondholders.

23. TIME-BAR

- 23.1 The right to receive repayment of the principal of the Bonds shall be time-barred and become void ten (10) years from the relevant Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be time-barred and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been time-barred and has become void.

- 23.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*Sw. preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to the right to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the time-bar period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

- 24.2.2 In addition to Clause 24.2.1, if any information relating to the Bonds, the Issuer or the Group contained in a notice that the Agent may send to the Bondholders under these Terms and Conditions has not already been made public by way of a press release, the Agent shall before it sends such information to the Bondholders give the Issuer the opportunity to issue a press release containing such information. If the Issuer does not promptly issue a press release and the Agent considers it necessary to issue a press release containing such information before it can lawfully send a notice containing such information to the Bondholders, the Agent shall be entitled to issue such press release.

25. **FORCE MAJEURE**

- 25.1 Neither the Agent nor the Issuing Agent shall be held responsible for any damage arising out of any legal enactment, or any measure taken by a public authority, or war, strike, lockout, boycott, blockade, natural disaster, insurrection, civil commotion, terrorism or any other similar circumstance (a “**Force Majeure Event**”). The reservation in respect of strikes, lockouts, boycotts and blockades applies even if the Agent or the Issuing Agent itself takes such measures, or is subject to such measures.
- 25.2 Should a Force Majeure Event arise which prevents the Agent or the Issuing Agent from taking any action required to comply with these Terms and Conditions, such action may be postponed until the obstacle has been removed.
